"According to the New York Times, "The United States and the European Union have embraced the revolution here as another flowering of democracy, a blow to authoritarianism and kleptocracy in the former Soviet space." (After Initial Triumph, Ukraine's Leaders Face Battle for Credibility, NYTimes.com, March 1, 2014, emphasis added)

"Flowering Democracy, Revolution"? The grim realities are otherwise. What is at stake is a US-EU-NATO sponsored coup d'Etat in blatant violation of international law.

The forbidden truth is that the West has engineered -through a carefully staged covert operation- the formation of a proxy regime integrated by Neo-Nazis, including Right Sector and Svoboda.

The following full length documentary produced by Ukrainian opposition activists provides detailed evidence, documentation and understanding of the role of Neo-Nazi organizations as well a historical background.

This footage documenting the atrocities committed by the Kiev regime against the people of Ukraine have not been shown by the Western media.
