

Totalitarian Rule in America: False Flags, Secret Prisons, Extrajudicial Assassinations, Media Censorship, The Rounding Up of Alleged “Terrorists” ...

Every day signs are looming larger than life as we know it in the wealthiest nation on earth that it's about to crash and burn, forever changing not for the better. The latest wake-up call arrived in a [Guardian article](#) earlier this week. The story features a secret prison not unlike the CIA torture detention centers all over the world whereby the Chicago police hold rounded up US citizens for hours or days at a time for interrogation. The same internationally illegal roundups of suspected “potential terrorists” (which by latest Gestapo America standards can easily be you or me) that the CIA and military black ops deploy globally, are being covertly conducted not only in Obama’s hometown where his thug buddy Rahm rules, but likely every US city and soon coming to a neighborhood near you.

The complete loss of constitutional civil liberties where we can be taken in without warrant, locked up and shackled for indefinite periods of time, where to all our friends and family we simply disappear, those totalitarian Orwellian tactics are here today in secret CIA-like “black site” locations throughout the nation. Lawyers are summarily turned away. Those imprisoned are not booked nor entered in any record-keeping system, only to typically be [beaten and shackled](#). It was determined that one man at the Chicago site already died while in custody. If this inhumane brutality hidden from public view is operating in one major US metropolis, it means that these secret police detention centers are no doubt also up and running in secret locations throughout America. This worst case scenario of police state USA is just one more nightmare come true. And this comes after it's been determined that Americans are [at least 100 times more likely](#) to die at the hands of murdering police than in all other industrialized nations.

For numerous decades the United States has engaged in both high intensive and low intensive counterinsurgency and counterterrorism wars around the globe. But now in the twenty-first century all those same black ops wars have come home to roost right here in the land of the not-so-free. To police state USA all American citizens are the potential enemy. It's also fair to say that the police in countless jails and prisons have unlawfully beaten and killed thousands of US citizens while in police custody over the years. Sadly, this form of murder in covert black sites where inmates are literally tortured to death takes police state brutality and slaughter to a whole new unprecedented level. And of course those of color and poor are most often the victims. Two years ago it was reported that a black man is killed by police [every 28 hours](#). And with the deaths spiking last year, it's more apt to be closer to every 24 hours now.

On a far less shocking and dramatic note, the latest FCC 3 to 2 vote on Thursday to “maintain net neutrality” has been treated in the press as a triumph for the people. Yet before we internet users celebrate, several key factors still need to be pondered. We already know the overriding history in North America where giant transnational corporations enjoy more individual rights than us individuals in this age of globalism. The people may have averted a disastrous lost battle but the war of corporate greed winning out over the rights of people goes on. The FCC’s ruling declared that the internet falls under the rules and regulations of the [telecommunications industry](#) and we know what’s been happening there. [Six corporate entities](#) virtually control all the world’s major media outlets.

Secondly, the 300-page details of the FCC decision has yet to be released. Literally armies of telecom lawyers will be analyzing every line of 300 pages with a fine-tooth comb just searching for the myriad of [potential loopholes](#) by which the large corporate internet providers can find ways to squeeze additional money for the giants at our expense. Finally, the FCC has a special new rule called the [“general conduct rule”](#) whereby as in FCC Chairman Wheeler’s words, “it wants to referee” in getting to decide what it deems unfair or “hurts consumers, competition or innovation.” With such a vague and wide open birth, the FCC wields enormous power to interpret its 300 pages of new rules in what it considers running afoul of “proper conduct” and it may not be in favor of us internet consumers. Meanwhile, the telecom lawyers have unlimited time and money to finagle, lobby and court FCC’s favor, not unlike Big Business rules over the EPA in getting away with all kinds of unregulated pollution and Big Pharma literally owns the FDA.

Big Gov operates in deviously sneaky ways. It knows ruling against net neutrality now would cause a storm of fury in America that temporarily Washington is choosing at this moment to avoid. But as mentioned, the mountains of fine print perfectly suited for loopholes contained in 300 pages of rules can easily turn this ephemeral victory into another staggering long term defeat for the people. It’s simply akin to the hard kill being deferred to the soft kill strategy, quietly sneaking through little changes that in their totality will eventually peck away at net neutrality and ultimately kill it. We need to always remember that in recent years gov.corps is one entity that historically favors corporate greed and profit over the well-being of a bunch of humans. The power elite’s agenda remains to offer less internet services, less access to not only the internet but to particular websites that will come at higher prices to access in the future.

Indeed the growing threat of our tyrannical fascist government cutting off access to independent alternative news sites falling victim to state censorship is still very real and extremely foreboding. Increasingly the elite’s agenda is to disempower the global masses by keeping them ignorant, dumbed down and in the dark without any access to the truth. Taking away much of the World Wide Web is their sinister strategy that’s still operating at all times despite this recent decision.

The totalitarian government in Washington has realized that their propagandizing mainstream media machine has been rapidly losing its credibility and audience. Upwards of [4 out of 5 Americans](#) today aren’t even tuning in to the likes of NBC’s Brian Williams’ fake show for MSM’s inaccurate reporting of the latest unfolding events in the globalized censored world. And that trend arrived long before we learned Williams turned out to be another mainstream liar.

The totalitarian government’s fusion into corporate fascism has long recognized that supplying the world with free internet allows the masses access to alternative independent

news sites for far more accurate reporting of world news and developments. At increasing risk of [censorship black outs and persecution, independent news](#) strives to tell the truth to the rest of the world, exposing the official narrative of pure lies and evildoing perpetrated by the criminal syndicate acting as the rogue government. A continued free and independent internet news outlet making suppression of the truth difficult poses a real threat to fascism. That's why free internet is still under attack.

The other reason the internet poses a threat to New World Order is its enormous capacity to provide instant global communication between billions of humans around the globe that together possess a potentially powerful resistance movement opposing the oppressive tactics being implemented by globalized multinational governments. Ultimately an awakened, informed and empowered citizenry of the world united in solidarity poses the biggest threat to global fascism and its New World Order. That's why through [Executive Order](#) Obama has given himself supreme dictatorial authority to shut down the internet in America under the pretense of a national emergency.

As another in-our face, over-the-top, draconian measure that reveals how today's totalitarian police state is fast closing in on us is the feds' agenda to impose [mandatory vaccine immunizations on every American adult](#) as well as child. Since 9/11 the feds have been systematically stripping away all our liberties. But when forcing potentially lethal injections on us citizens against our will, the tyrants in Washington will likely have a real fight on their hands. With [overwhelming evidence](#) piling up indicating vaccines pose a deadly danger to millions of humans, the feds forcing injections on all US adults may be the catalyst that sparks a genuine grassroots revolt not unlike what the Boston Tea Party was to the American Revolution. With an increasing segment of the US population becoming sick and tired of their government's rampant oppression, their battle cry may be "enough is enough with your abusive totalitarian bullshit." The US government has long overstepped both its legal and ethical boundaries that the people may now be reaching the [tipping point toward active rebellion](#).

Of course everything gov.corps does has an intended purpose. With this latest Big Brother violation - the [National Adult Immunization Plan](#) (NAIC), it appears the feds are actually intending to create a national confrontational backlash. Ever since 9/11 they've been preparing for the civil unrest that they've been insidiously provoking and escalating. With the US police state fully militarized, mechanized and mobilized, apparently Washington's nearing ready to unleash its absolute brutality full force against its own people.

In the same way the US lies and propaganda are attempting to demonize Putin as the bad guy excuse to start WWIII, baiting him to react to relentless over-the-top Empire transgressions, the feds are using the same demented strategy now on us too. They want Americans to react and oppose them so they can bring out their big guns and initiate those long awaited [FEMA camp roundups](#) we've been hearing about for years - all for the sake of quelling the unrest they themselves incite as their excuse to "restore civil order". It's downright demonic but unfortunately that's where our nation and world appear to be heading, led by an elitist handful of sub-human [psychopaths](#) that within a short period of time are bent on [killing off at least 90%](#) of us currently inhabiting this planet.

The neocon [9/11 inside job](#) shows more about the treasonous, demonic elements controlling the US government (along with [Saudi-Israeli assistance](#)) that executed nearly 3000 innocent Americans to justify waging permanent war around the world than it does 19 box-cutting

Moslem terrorist-stooges borrowed from the Saudi government accomplice. Yet the evildoers responsible for 9/11 have targeted Islamic religion as their scapegoat and polarized the entire world with dozens of false flags purposely designed to [demonize Moslems worldwide](#). By waging false flag terrorism events like January's [Charlie Hebdo attack](#) in Paris, between Bush and the Obama regime they have maintained the US and the world in a constant [state of emergency](#), using that designated status as their carte blanche false flag policy to get away with anything and everything evil.

As an example, with the total [dismantling of the US Constitution](#) since 9/11 that for more than two centuries guaranteed Americans their civil liberties, now the criminal syndicate of our [shadow rogue de facto government](#) currently in power is [waging undeclared war against the American people](#). Meanwhile, increasing numbers of Americans at grave risk to themselves are growing boldly courageous enough to vocally object to the tyranny and criminality of the treasonous feds who've systematically violated both their oath to uphold and protect the Constitution and the Constitution itself as our nation's no longer recognized rule of law. This criminal element inside our own government is not only killing innocent people around the world but is now beginning to brazenly murder innocent American citizens on US soil with increasing regularity. Recall Obama a couple years ago envisioning out loud his use of drones to [kill citizens here in the US](#) in the not too distant future. And now he's [selling killer drones to US allies](#) that inevitably will fall into ISIS/al Qaeda hands as the rogue government's fake enemy and true ally that will join the Empire in the slaughter of Americans.

For years the federal government has been arming and [militarizing its robotic henchmen in preparation](#) for waging all-out war against the mounting anger and civil unrest coming from the American people. The exponential growth of the Homeland Security Department and FEMA, the pathological surveillance state, the militarization of US police state, the [2012 National Defense Authorization Act](#) that authorizes military force to break into our homes and arrest law-abiding US citizens without warrant, without charges and imprison Americans without due process or legal representation for an indefinite period of time, all of these highly [disturbing developments act as hardcore evidence](#) of the government's not-so-hidden war against the American people.

For some time now Obama has been both secretly and not so secretively negotiating a full frontal assault on America with implementation of the nightmarish [UN Agenda 21](#) whereby under the rationale of sustainability the UN will work in conspired unison with DHS to relocate much of the US population away from rural and suburban areas into [denser populated urban zones](#). According to their plan, the US has already been broken down into various regional sections most of which will end up unpopulated. Similar to the method of how "national security" has been used to cram down our throats in order to justify stripping us of all our rights and freedom, Agenda 21 uses the transparent façade of "sustainability" as its oppressive criminal excuse to confiscate and steal our homes and force people into federal urban housing. Counties throughout the States and beyond have been busily enacting Agenda 21 laws using eminent domain to illegally force people off their own land and property.

[Those who object are labeled noncompliant dissidents](#) joining the activists and journalists who've been protesting and exposing the federal crimes against humanity. They are the designated enemy to be rounded up and placed in the more than 1000 FEMA concentration camps that have been waiting to be filled. In the last decade Halliburton has contracted with gov.corps to refurbish and build hundreds of prisons throughout America. To justify mass

murder and imprisonment, the feds are now openly calling those of us who object to their lethal madness [homegrown terrorists](#). Yet it is they who are the true terrorist-traitors reigning terror, theft and destruction down on this entire planet. We law abiding citizens are determined patriots willing to stand up for our rights, indeed standing up for humanity and the very survival of our human species. Members of the ruling elite are the perverse, insane [psychopathic criminal](#) mass murderers.

The US government since 9/11 has turned the United States of America into a military-security-prison complex with multiple state and city [information analysis fusion centers](#) working 24/7 around the clock in cahoots with militarized law enforcement and NSA surveillance creating dossiers on every single person in America. Those of us who object, resist and/or oppose the insanity of what's happening will either be [imprisoned or killed](#).

Obama has been secretly signing a host of Executive Orders (EO's) without Congressional approval, many of which violate existing laws rendering his orders illegal. But the crime syndicate behind the current de facto government operates above all law. The criminals in power do not answer to anyone but the ruling elite. And though they're all bona fide, soulless psychopaths, they're utilizing their brute force to subjugate innocent, good people in bondage or worse yet, simply murdering them.

Perhaps the most graphically telling EO of all illustrating their sinister nature is [Executive Order 13603](#), which grants Obama authorization to seize possession of every possible resource, from our property to "all food storage facilities" (meaning all food and water belonging to every person inside our homes). This extremist, maniacal edict is designed to enforce our submission, rendering us totally dependent on Big Brother government or face the obvious - starvation and extermination.

President Obama has quietly transferred his intelligence gathering apparatus from the superseded NSA now under the authority of the Department of Homeland Security. The reason is simple, NSA can only collect data but is not authorized to act on it. Now [DHS does have federal authorization](#) to act against all the dissident voices who've become outraged over how our government has betrayed the United States and our people. If not already, very soon DHS will be moving to lock up those observed and classified by NSA as targeted security threats who've been placed on growing watch lists. Among this list, a dissident's gradient status as a security threat target is measured on how large a conduit disseminating the lowdown truth to the public that automatically places him or her at the top of the list to be silenced.

Neocon puppet Bush summed it up when he smugly pronounced, "You're either with us or against us." Ever since he uttered those words, the US population has become polarized into two growing divided camps. The one camp consists of the totalitarian enforcers that are members of the criminal government agencies having drawn the line in the sand with their massive bulk data collection separating themselves from their opposing camp - those of us citizens who disagree with their Orwellian nightmare-come-true. A third group of Americans are sitting on the fence, though leaning toward the oppressors as in the Stockholm syndrome, either employed in the Fortune 500 transnational corporations unwilling to bite the immoral hand that feeds them or part of the larger flock of sheeple representing Americans either too ignorant, weak or fearful who remain in denial or have stuck their head in the sand pretending or hoping that what's happening above ground really isn't happening at all. They are in for very a rude awakening.

Everyone part of this demonic system simply plays their part in doing what they're told, not unlike the Nazi guards at the Jewish concentration camps during WWII. So now you can see why the [psychiatric field has been co-opted](#) and taken over by our Gestapo totalitarian government that represents the oppressive crime syndicate. Mental health clinicians are being mandated to brand anyone with a label in order to declare them certifiably ill with a mental disorder diagnosis that can be applied conveniently to anyone regardless of how stable, well-adjusted or strong their mental and emotional health may actually be. This labeling for control purposes will come in handy as to deciding who goes where under martial law.

Now you know why [oppressive draconian laws](#) have been springing up all over the country as well as globally usurping homeowners' rights to even grow their own vegetable gardens in their own backyard. Harassing and shutting down community food co-ops that undermine local citizens' resources and independence has been part of the feds' agenda. In fact, anyone who is preparing to [live off grid](#) as a resourceful survivalist/prepper is also in their crosshairs. It's even become unlawful in many municipalities to be a caring humanitarian these days. Serving food to the homeless in parks is now considered a crime across America.

For a long time Obama and the feds have been attempting to confiscate citizens' Second Amendment rights to bear arms with the passing of stricter gun control legislation to such an extreme of using [Sandy Hook](#) as yet one more horrendous false flag. For that singular purpose, Obama has signed [twenty-three Executive Orders on gun safety](#) alone. Already early in 2015 Obama is at it again with his plan to take guns away from gun owners. His latest unilateral move is to ban a bullet commonly sold in local sporting goods stores that's been among the most popular ammunition in America for generations, used in multiple rifles as well as a new kind of revolver. The catch here is the [.223 caliber "green tipped" bullet](#) is known to pierce bullet proof vests typically worn by police state nation. By outlawing and collecting all the most popular ammo and making it strictly for the feds' use, when his government goes to war against Americans, it'll obviously give his murdering death squads a distinct, unparalleled advantage.

During the global spread of the Ebola virus last August, Obama signed executive orders authorizing authorities to begin involuntarily rounding up and housing against their will the [homeless and mentally ill](#) to even include persons with known [respiratory ailments](#) (EO13295). All of these draconian measures demand total dependence and docility from its citizenry - or else. While Americans are now trapped in a domestic police state, cops are killing innocent people in the US every single day at an unprecedented, alarming rate. If you resist, you risk dying. And even if you don't resist, you still risk dying.

The constant attack on citizens struggling to maintain their modest yet eroding standard of living desperately trying to stretch less money to cover the steadily rising costs of survival spells a very uncertain and even doubtful future for both Americans and people throughout the world. The ever-shrinking middle class in both North America and Europe is the inevitable, by designed outcome of globalization, privatization, destabilization, rising war and [massive human impoverishment](#). The unstable future of the world feeds the emerging New World Order along with its demonically Orwellian control of the entire global population.

Ever since the breakup of the Soviet Union nearly a quarter century ago, the US as the sole global superpower has aggressively been surrounding the entire Russian border placing [missiles on its doorstep](#) aimed directly into Russia while the US Empire-NATO-

European Union has co-opted as geopolitical puppets the entire former Soviet bloc nations of Eastern Europe including a number of Central Asian countries on the globalized chessboard hemming in Russia and China into checkmate position.

Despite this prodding, walled in aggression used as bait to manipulate Putin into reacting and fighting back, he has repeatedly outsmarted the US and its puppets by showing remarkable restraint. But the US has pushed him to the very limit. Understandably he has strengthened ties with neighboring China and formed an economic union with other emerging powers Brazil, India and South Africa (BRICS) in formidable economic self-defense. Just this week India's cabinet approved of a [BRICS development bank](#). Meanwhile, increasing financial reports have predicted that the US dollar and petrodollar as the standard [international currency will be dropped](#). And that may spell economic disaster for the United States.

In response to the threat that the West poses, a coalition of nations in the East – Russia, China and India – have all been forced to prepare for the impending war the US Empire has been instigating. Clearly it is America and Europe that are the [wrongful aggressors](#) that have been deliberately setting the stage for World War III against nuclear-powered Russia and China. Also clearly in the court of world opinion, [Putin is winning](#) and once again Obama and his neocon aggressors are losing. The real problem though is all of us on earth might lose because of Obama and his puppet masters' deadly games.

Everything in this world now is reversed from the way it once was and should be. It is painful to realize that we Americans were always brainwashed and taught that we were the good guys and the Russian and Chinese Communists were always the bad guy oppressors. However, now roles seem very much reversed whereas the relentless, instigating aggressor pushing for what could easily become nuclear war and the end of the world, American Empire has become the most dangerous rogue state on earth flailing in its [final destructive acts before it collapses](#). The tragic irony and pathetic hypocrisy is that the United States always in its holier than thou self-righteousness criticized the totalitarianism of the Soviet Union and China. Yet it now appears that the darkest shadows of the gulag are operating as "black holes" right here in America, the land of the no longer free but the enslaved and the walking dead who haven't awakened from their slumber of what used to be to find the once greatest nation on earth the most destructive predator spiraling into oblivion but seemingly determined to take the entire planet down with it.

In reality the US government is simply acting on orders from the ruling Western elite that has ordered destruction of the United States. The ruling elite has taken the entire human species hostage and like their Islamic State stooges, the psychopathic oligarchs are busily beheading the entire human civilization in a relentless combination of both soft and hard kill tactics designed to exterminate [90% of the global population](#). This is the first known human genocide – the earth's sixth mass extinction and [first caused by a handful of demonically possessed sub-human species](#) that has been in control of planet earth for many centuries. We owe it to all life on planet earth to fight back.
