"The reasons for the police raid and arrest ... have not yet been officially revealed. However, there are rumors [unconfirmed reports] that Dr. Andreas Noack provided medical assistance to hundreds of protestors during lockdown protests against the German government.

Reports also indicate that Dr. Andreas Noack was under investigation by the authorities for

being non-compliant with the COVID-19 lockdown laws enacted by the German government. ... The arrest was made after the German Parliament passed the **“Infection Protection Law”**.

In the live stream, policemen can be heard banging furiously on the door of the place, where Dr. Andreas Noack was broadcasting. “It’s the police,” a man can be heard saying off-camera in panic. The video then shows police barging into the building forcing Dr. Andreas Noack to the ground. The police then proceed to turn off his live stream.

People who were watching the live stream are currently questioning the reasons for his arrest. “I think the guy is guilty of expressing his opinions,” said one user.

Another report on Twitter [said](#),

“This happened to doctor Andreas Noack in Germany. After the unconstitutional approval of the infection law, police broke into his house while he was having a live transmission on YouTube. Those who cried against fascism have created the most criminal dictatorship in history.”

The arrest was made on a live video stream. The manner in which the arrest was made is extremely unethical, armed policemen just yell at Dr. Andreas Noack till he settles on the ground.

The police do not state their reasons for arresting him, nor do they show a valid arrest warrant. Arrests such as these are blatant violations of due process. Every citizen has the right to security against arbitrary arrests.

One user tweeted,

“German doctor Andreas Noack raided by armed police during youtube stream and arrested inside his home for breaking Covid laws. Really, he is just anti lockdown and expressing his views. FIGHT BACK PEOPLE. If u don’t now, it will b TOO LATE later!”.
