OTTAWA—A senior adviser to Prime Minister Justin Trudeau is defending her use of crude, sexual language in an online exchange with the right-wing influence group, Canada Proud, stating she was subject to a “co-ordinated harassment campaign” and that Canada Proud trafficks in “vile” disinformation.

The exchange occurred in a series of posts on X, formerly Twitter, over the weekend, in which the PMO's newly-hired adviser Supriya Dwivedi derided Canada Proud for having a “raging boner” for a female journalist who covers the far right. Responding to how the Canada Proud account implied she was acting unprofessionally and wrote she was having a “public meltdown,” Dwivedi responded: “you can go back to gooning to Jordan Peterson now.”

July 21, 2023 - Oakville, ON - Supriya Dwivedi's husband, 40 year old Anoop Singh died on July 21, 2023 after a short 7 month battle with Stage 4 Lung Cancer.

Obituary Overview

In Loving Memory

In the early hours of July 21, 2023, after 40 years in this life, Anoop Singh died in his home in Oakville, Ontario. He left on his own terms, just as he designed it: at home, next to his wife, Supriya. We will spend the rest of our lives searching for the right words to express how much we loved him, how much we still love him, and how much we miss him.

...

This feels completely surreal to type but early on the morning of July 21, my husband Anoop passed away after 7 excruciating months with stage 4 lung cancer.

I love you, Anoop. I promise I'll find you when the game resets xo

Australia - 26 yo Caillin Atchison, daughter of Australian Medical Association President Dr. Michelle Atchison, died suddenly in her sleep on May 11, 2022. ([Click here](#))

Just in case there are any questions about how big of an mRNA vaccine pusher her Australian physician mother Dr. Michelle Atchison was:

My Take...

Most people think that the prominent COVID-19 mRNA Vaccine pushers all took saline injections and got fake COVID-19 Vaccine passports.

But let me impart a lesson from Communism.

The most “believable” Communist propagandists were those who truly believed that it was the ideal system. They were also the most fervent proponents of Communist ideology.

It is my impression that those who are in the public spotlight, pushing the COVID-19 Vaccines on behalf of the government and big pharma, are most likely true believers who took the shots and got their family members to take the shots as well.

Supriya Dwivedi and her husband Anoop Singh were almost certainly mRNA jabbed. Her 41 year old husband developed Stage 4 Lung Cancer and died 7 month after diagnosis, a clinical picture that's virtually unheard of. I strongly suspect mRNA Induced Turbo Cancer (Lung Cancer is in the top 5 Turbo Cancers).

Dr.Celine Gounder's 49 year old soccer journalist husband Grant Wahl was also almost certainly vaccinated, and he was reporting on the 2022 World Cup in Qatar. While it's possible for a 49 year old to have a ruptured aortic aneurysm, it would also be a relatively rare occurrence and even rarer to die from it suddenly without warning. However, COVID-19 Vaccines damage blood vessels and cause aneurysms.

Dr.Michelle Atchison is a former President of the Australian Medical Association. Australia was extremely aggressive in pushing COVID-19 Vaccines on the population. Her daughter died suddenly in her sleep at age 26. This would also be extremely rare, but a very common cause of death in the COVID-19 Vaccinated.

I believe we will see many more such cases going forward.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”

Reviews

This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this crisis. The COVID-19 pandemic is contextualized. —Dr. Mike Yeadon

In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky’s book is a rock upon which to sustain our fight. —Dr. Emanuel Garcia

In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plan would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test - which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists. —Peter Koenig

Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. —David Skripac

A reading of Chossudovsky’s book provides a comprehensive lesson in how there is a global coup d’état under way called “The Great Reset” that if not resisted and defeated by freedom

loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it's too late. You will not find so much valuable information and analysis in one place. -Edward Curtin
