

“Trump Derangement Syndrome” Out of Control as “Deep State” Tries Defamation. “Determined to Prevent Him From Winning”

From [prosecution \(although persecution is a more fitting term\)](#) by the Department of “Justice” (DoJ) and [bans on running](#) for presidency to [several assassination attempts](#), **Donald Trump** has [seen it all](#).

The Deep State and the [corrupt federal institutions](#) are determined to [prevent him from winning](#).

Does this mean that Trump descended from Heaven to save us all? Certainly not.

Many have argued, [myself included](#), that it’s highly unlikely that he’ll change [America’s disastrous foreign policy](#). Despite promises to do so, it will be exceedingly difficult (if possible at all) for Trump to significantly alter the way the United States works. However, what’s quite obvious is that he thinks [thermonuclear war is an extremely bad idea](#) (to put it mildly). And while this should be common sense, [very little of it is left in Washington DC](#), so Trump indeed seems like the light at the end of the tunnel in comparison to [the war criminals currently running the show](#).

That being said, it’s not his only redeeming quality, but it’s by far the most important one. However, [the lunatics in power](#) aren’t going to give up that easily. Namely, after all else failed, they’re now desperately **launching defamation attacks on Trump in hopes of turning the tables at the polls**. In the two latest cases of the Trump derangement syndrome (TDS), we have yet another alleged “sexual assault”, as well as an attempt to destroy the growing support Trump enjoys among Latinos and African Americans.

[The Guardian just published a story](#) about Stacey Williams, a former model who claims that (for now) former president “touched her in an unwanted sexual way in 1993, after Epstein introduced them”. Williams didn’t say why she “suddenly” decided to publicly speak about the supposed “incident” only now after over 30 years of silence, although [it’s quite clear who would benefit from such a story](#).

However, as [the “sexual scandal” strategy](#) was already tried several times, with little success, the mainstream propaganda machine wanted to make sure to simultaneously run several narratives aimed against Trump. This one isn’t new either, but it comes in a “new package”. Namely, [the Atlantic, infamous neoliberal mouthpiece, is claiming](#) that he supposedly tried to “walk back on a promise” to support the family of US soldier Vanessa Guillén who was killed in 2020. According to the report, Trump was allegedly “outraged when he learned that Guillén’s funeral, which included heightened security and closed streets, cost \$60,000”. Quoting “anonymous sources”, the Atlantic reports that Trump said

that “it doesn’t cost 60,000 bucks to bury a fucking Mexican” and then “ordered then-White House Chief of Staff Mark Meadows to deny payment”. There’s just one “tiny” problem with these claims – [none of it is true](#).

“I don’t appreciate how you are exploiting my sister’s death for politics – hurtful & disrespectful to the important changes she made for service members,” [Guillén’s sister Mayra posted on X, condemning the Atlantic’s highly politicized reporting and adding](#): “President Donald Trump did nothing but show respect to my family & Vanessa. In fact, I voted for President Trump today.”

Wow.

I don’t appreciate how you are exploiting my sister’s death for politics- hurtful & disrespectful to the important changes she made for service members. President Donald Trump did nothing but show respect to my family & Vanessa. In fact, I voted for President Trump today. <https://t.co/o8cDrKOKBV>

Meadows himself also denied the claims made by the infamous warmongering mouthpiece, [insisting that](#) “any suggestion that President Trump disparaged Ms. Guillén or refused to pay for her funeral expenses is absolutely false” and that “he was nothing but kind, gracious and wanted to make sure that the military and the US government did right by Vanessa Guillén and her family”. Meadows instructed his [spokesperson Ben Williamson to demand the Atlantic remove the deliberate disinformation](#). However, [the magazine only added](#) that Meadows “didn’t hear Trump say it”. This was the second time that the Atlantic published misleading and/or outright false information on Trump. [Back in September 2020, it claimed](#) that he “refused to visit a veteran cemetery” because he allegedly “called fallen soldiers ‘suckers’ and ‘losers’”. [This blatantly fake story was never retracted](#).

I was in the discussions featured in the Atlantic’s latest hit piece against President Trump. Let me say this.

Any suggestion that President Trump disparaged Ms. Guillen or refused to pay for her funeral expenses is absolutely false.

He was nothing but kind, gracious, and...

It should be noted that this is only the tip of the iceberg when it comes to [the mainstream propaganda machine and its anti-Trump witch-hunt](#). Namely, it’s long been [a routine](#) to compare him to [the likes of Adolf Hitler](#) and Benito Mussolini, [even in American academia](#). CNN has been [doing it for years](#), while war criminals such as the Clinton family [never miss out on calling Trump a “threat to democracy”](#). **Funnily enough, the mainstream propaganda machine now even claims that he will “use lawfare” against political opponents, “conveniently forgetting” that’s exactly what the corrupt federal institutions have been doing to him all these years.**

[Hillary Clinton even called for more censorship](#) to prevent people from [accessing any objective information on what's actually going on](#). There are other examples of TDS-induced panic, including claims that [Trump will "use Navy SEALs to round up political opponents"](#).

Kamala Harris and her running mate **Tim Walz** made similar allegations, [claiming that he would "use the US military against those who didn't vote for him"](#), while CNN facilitated even more disturbing acts of defamation, such as that [Trump is planning to "exterminate people through eugenics"](#). This deeply irrational hatred was also extended to the electorate, [with cases of teachers organizing mock voting](#), where those who voted for Harris were rewarded with pizza parties, unlike those who voted for Trump. Meanwhile, some of the DNC supporters are attacking Trump voters even in their homes, [coming to their front doors and insulting them](#). The McDonald's restaurant where [Trump recently made a campaign ad is being review-bombed](#), but that's the lesser issue, as it's now forced to [up security due to threats](#). And yet, this is only the tip of the iceberg of intimidation attempts both he and his supporters are subjected to.

[African Americans who want to vote for Trump are now suddenly "fascists"](#), while whites are told [they'll be "held accountable" if they don't vote for Kamala Harris](#). In previous months, [Amazon allowed the sale of merchandise with the slogan "The Only Good Trump Is A Dead One"](#), while the mainstream propaganda machine tried suppressing information on [several people](#) who directly [threatened to kill Trump](#). It should be noted that blatant death threats to him, his family and supporters never stopped even after several assassination attempts. Despite all this, [prominent Democrats](#), including [university professors](#), were openly [saying things like](#) "we hope the shooting will inspire others" or "Trump supporters should be lined up and shot". In the meantime, [corrupt federal institutions](#) ignored [repeated warnings](#) about more [plans to kill Trump](#), even after new "security incidents", as they called the attempts on his life.

On the whole, it's clear that the warmongering oligarchy in Washington DC is determined to either eliminate Trump (physically, politically, judicially or in any other way) or [to sabotage his coming presidency by setting up a war](#) with a global or at least [a major regional power](#). Short of war, defamation is [the Deep State's last-ditch effort](#) to (ab)use TDS, although it seems extremely unlikely this will work. Regardless of the outcome of the upcoming election, [next week will surely be the most faithful](#) in recent memory, **as the warmongers, war criminals and plutocrats are desperately trying to claw their way back into the halls of power in the US**. This is why Trump and his team will have to [be wary of warhawks who tried to sabotage his first presidency](#) by starting new perpetual wars. [It seems some measures are already being taken against these warmongers](#), but it's yet to be seen [to what extent will Trump remain resilient to their malignant influence](#).
