These are the demented Gang of Four who are determined to destroy 74 years of international cooperation for peace by waging a completely unwarranted war against Iran in a bid for global supremacy, and oil, that will provoke nuclear war and potentially millions of deaths.

Today, the world stands at the crossroads where peaceful cooperation between the nation states of the world faces the prospect of nuclear war instigated by a small group of highly dangerous, political aggressors with a defined leadership and internal organisation that is intent on engaging collectively in an illegal and violent attempt at global domination.

We should not fall into the trap of believing that it will never actually happen because common sense will prevail. These men are not driven by logic or reason. They are driven, individually and collectively, by a desire for personal power.

They will use whatever means are available and that translates into weapons of mass destruction - nuclear, chemical and biological - that will potentially destroy the Middle East and turn much of Europe into a contaminated wasteland.

The world, particularly Europe, must awake. The current White House administration is an existential threat to all of us wherever we live. The clock is one minute to midnight, right now. The United Nations Security Council needs to convene in emergency session and act, regardless of the US veto. If not, the demented four will bring global disaster.

As you read this, the US 5th Fleet (NAVCENT) based in Bahrain, is on high alert awaiting Trump's instructions to attack, with deep-penetration missiles, major underground targets as well as conurbation centres, in Iran. Once that order is given, there can be no turning back. Co-ordinated and long-planned nuclear attacks from Israel, by air and sea, will follow, and death and destruction will fall upon the entire region.

Global oil prices will immediately multiply by a factor of from 3 -10 as all Gulf supplies are cut and stock markets around the world go into freefall. The die will have been cast and darkness will then be upon the face of the deep.

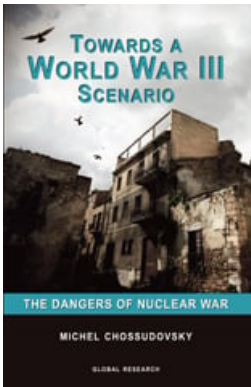

The international community, and in particular the US Congress, must not let this happen but must act decisively now to render their president and the other warmongers impotent

before it is too late.

Reviews

“This book is a ‘must’ resource – a richly documented and systematic diagnosis of the supremely pathological geo-strategic planning of US wars since ‘9-11’ against non-nuclear countries to seize their oil fields and resources under cover of ‘freedom and democracy’.”

-John McMurtry, Professor of Philosophy, Guelph University

“In a world where engineered, pre-emptive, or more fashionably “humanitarian” wars of aggression have become the norm, this challenging book may be our final wake-up call.”

-Denis Halliday, Former Assistant Secretary General of the United Nations

Michel Chossudovsky exposes the insanity of our privatized war machine. Iran is being targeted with nuclear weapons as part of a war agenda built on distortions and lies for the purpose of private profit. The real aims are oil, financial hegemony and global control. The

price could be nuclear holocaust. When weapons become the hottest export of the world's only superpower, and diplomats work as salesmen for the defense industry, the whole world is recklessly endangered. If we must have a military, it belongs entirely in the public sector. No one should profit from mass death and destruction.

-Ellen Brown, author of 'Web of Debt' and president of the Public Banking Institute
