Soft Protests

US news media report protest movements of several hundred in several state capitals urging College Electors not to vote for Trump. No significant mass movements took place. No shift in votes has occurred in relation to Trump.

The propaganda "fake news" campaign led by the mainstream media (with the support of Obama and CIA Director John Brennan) portraying Trump as a Russian agent has failed

dismally.

The NYT acknowledges that:

Despite calls for electors to defy the voters in states carried by Mr. Trump, the only signs of “faithless” electors have been in states that Mrs. Clinton won. (NYT, December 19, 2016)

The most pernicious “hate news” attack on Trump was on NBC’s Saturday Night Live which intimated that if Donald Trump becomes president, **“he will kill us all”**.

NBC

WARNING

SNL’s Hillary Clinton Goes Full ‘Love Actually’ on Elector: Trump ‘Will Kill Us All’

In a spoof of ‘Love Actually,’ Kate McKinnon’s Hillary Clinton shows up at an elector’s door. Instead of “To me, you are perfect,” it’s something far more bleak.

According to the reports:

There were many protesters but few faithless electors as Donald Trump appeared to cruise toward 270 votes in the Electoral College on Monday — ensuring he will become America’s 45th president.

Even one of Trump’s fiercest Republican rivals, Ohio Gov. John Kasich, said it was time to get behind the president-elect.

In Madison, Wisconsin, protesters shouted, cried and sang “Silent Night.” In Augusta, Maine, they banged on drums and held signs that said, “Don’t let

Putin Pick Our President,” referring to Russian President [Vladimir Putin](#).

But despite the noise outside state Capitols, inside, the voting went pretty much as planned.

With more than 30 states reporting, neither Trump nor [Hillary Clinton](#) had lost a single elector.

....

Republican electors have been deluged with emails, phone calls and letters urging them not to support Trump. Many of the emails are part of coordinated campaigns.

Some [democrats] have also tried to dissuade Trump voters by arguing that he is unsuited to the job. Others cite the CIA’s assessment that Russia engaged in computer hacking to sway the election in favor of the Republican. ([ABC news](#))
