

# Conspiracy to Suppress Existing Drugs that Effectively Treat COVID Patients in Favor of “Vaccines”

Tucker Carlson Interviews Dr. Peter McCullough

*To use an old cliché, “the cat is out of the bag.”*

*For perhaps the first time since the COVID [Plandemic](#) started at the beginning of 2020, Americans who get most of their information solely through the corporate media, which is heavily funded by Big Pharma, got a dose of reality on just what exactly has been going on for the past 16 months or so, thanks to Tucker Carlson, and his 45-minute interview with **Dr. Peter McCullough** last week on his [“Tucker Carlson Today”](#) show on Fox News.*

Dr. Peter McCullough is well-known to most *Health Impact News* readers, as we have featured his testimony before the Texas Senate as well as the U.S. Congress in previous articles. See: [CENSORED: Dr. Peter McCullough, MD testifies How Successful Home Treatments for COVID Make Experimental Vaccines Unnecessary](#)

Viewers of this Fox Network program learned that there is, in fact, a worldwide conspiracy to suppress effective treatments for COVID patients in favor of experimental COVID injections.

To be sure, neither Tucker nor Dr. McCullough used the politically explosive term “conspiracy,” but they used other terms that communicate the exact same thing.

Dr. McCullough, for example, throughout the interview when referring to why other doctors and health agencies were not educating the public about effective early treatments that have been proven to save lives, used the term “group think,” and kept saying that “something is up” worldwide, to the point where Tucker kept pressing him to state why he thought this was happening.

Dr. McCullough eventually replied: “This is the goal of investigative reporters to figure out.”

Because to discuss the “why” this is happening was not the focus of this interview, and would have led to discussions about Bill Gates, Anthony Fauci, their ties to eugenics and

establishing a New World Order, etc. – topics beyond the expertise of Dr. McCullough.

To his credit, however, Dr. McCullough did allude to some of these things by bringing up the Nuremberg Code, and how doctors today are violating it.

But this interview was focused clearly on one single question: Why is nobody discussing COVID treatment protocols outside of the new experimental “vaccines”?

And Tucker was brilliant in this interview.

First, he chose the correct person to discuss this, Dr. Peter McCullough.

Dr. Peter McCullough is a consultant cardiologist and Vice Chief of Medicine at Baylor University Medical Center in Dallas, TX. He is a Principal Faculty in internal medicine for the Texas A & M University Health Sciences Center.

Dr. McCullough is an internationally recognized authority on the role of chronic kidney disease as a cardiovascular risk state with over 1000 publications and over 500 citations in the National Library of Medicine.

He is the most published scientist in the history of his field.

Anyone in the corporate media who wants to now label Dr. McCullough as a “quack” will be basically shooting themselves in the foot.

Dr. McCullough is not anti-vaxx, and neither is Tucker Carlson.

When you watch this interview, you will see two people who have been educated to believe in the medical system, but who obviously see that something is not right with the way the entire world has responded to COVID, where hundreds of thousands of people in the U.S. have died needlessly, because they were told to go home with COVID-19, because there was no treatment for it, when in fact there were successful treatments.

That lie has now been exposed to MILLIONS of people worldwide, thanks to the audience of Tucker Carlson.

People have asked me why Tucker Carlson is all of a sudden telling the truth about the COVID [Plandemic](#), and if he is “controlled opposition.”

I don’t think so, after watching this interview. I think he is like the many other honest doctors in the field of medicine, like Dr. McCullough, who although they believe in vaccines and pharmaceutical products, recognize that there are evil people with evil intentions running this COVID show, and their consciences will no longer allow them to be silent.

Tucker Carlson has one of the highest rated shows on Cable TV. He is obviously putting his own career on the line to expose this, choosing to follow the truth wherever it leads, no matter what it is going to cost him.

One of the things that impressed me the most about this interview, was that even though Fox News is mostly a Right Wing/Conservative/Republican platform, partisan politics NEVER entered the discussion. Just good, solid journalism.

This is a NON-PARTISAN issue that affects EVERYONE!

Please invest in the 45 minutes it takes to watch this incredible interview, and then share it far and wide. Please watch it on Fox News [here](#).

There is a cost, but it is well worth it, and you will be communicating to Fox News that this is the kind of information America wants and needs right now.

Because the issues discussed in this interview are life and death issues, we are invoking the Fair Use doctrine for non-commercial use, as this is a dire matter of public health that needs to be available to everyone.

The information in this interview can literally save your life, and the lives of your loved ones.

This is from our [Rumble channel](#), and it is also on our [Bitchute channel](#). But again, we encourage everyone to [go pay to watch it on Fox News](#). Your small investment will help tell Fox that we want more honest journalism on the COVID issues.
