Athens, GA - 21 year old University student Liza Burke had brain bleed on Mar. 10, 2023 while on vacation in Mexico, was diagnosed with a glioblastoma on her brainstem, and died 4 weeks later on April 28, 2023 ([click here](#)).

Boston, MA - Boston Celtics VP of Public Relations, Heather Walker, age 52 died from Glioblastoma on April 26, 2023 (she was initially diagnosed July 2021) ([click here](#))

Hoboken, NJ - 28 year old doctor Dr. Ahntu Vu (family medicine resident) died 2 months after being diagnosed with Glioblastoma, he died on April 18, 2023 ([click here](#))

“While awaiting the start of his treatments, Anhtu’s symptoms worsened and new imaging has shown rapid progression of the tumor over the last month”

19 year old hockey star Braydin Lewis died on April 15, 2023. In March 2022 he had a seizure, was diagnosed with a 2-inch brain cancer (glioblastoma) and had surgery. He died less than 11 months after diagnosis ([click here](#))

REST IN PEACE

#47 BRAYDIN LEWIS

Metro Jets Hockey @MetroJetsHockey · Apr 16
 After his diagnosis last summer, he was determined to return for his third season. Not only did he return, but played while undergoing treatment. Lewis's strength and willingness was an inspiration to the team and he showed up to support his teammates at every opportunity.

Hockey Prospect Braydin Lewis Passes Away at 19

BY AUSTIN KELLY · APRIL 16, 2023 (1:50 PM)

Hockey Prospect passes away at 19

Tragic news from the USPHL as youngster Braydin Lewis has passed away at the age of 19 following a fight with Glioblastoma, a common and deadly form of brain cancer.

Lewis, who was a member of the USPHL's Metro Jets, was diagnosed with a malignant brain tumor last year. Lewis had entered hospice care days before his passing. Earlier in the year, Lewis had dropped the ceremonial puck at a game supporting cancer awareness.

Los Angeles, CA - 55 year old Toronto Film Festival Co-Director & Film Exec Noah Cowan died on Jan. 25, 2023, one year after diagnosis of Glioblastoma ([click here](#))

Noah Cowan Dies: Former Toronto Film Festival Co-Director, Indie Distributor & SFFILM Exec Was 55

Noah Cowan, former co-director of the Toronto Film Festival and executive director of SFFILM in San Francisco, died Wednesday of cancer in Los Angeles, Deadline has confirmed. He was 55.

Cowan died of glioblastoma multiforme, an aggressive form of brain cancer he was diagnosed with in December 2021.

Billingham, UK - 57 year old Mark Bellergy died 3 months after being diagnosed with Glioblastoma, died on Jan. 4, 2023 ([click here](#))

Norwood, OH - 26 year old Emily McLean died on Oct. 22, 2022 after a 10 month battle with Glioblastoma ([click here](#))

Maryland - 65 year old news anchor Wendy Rieger died on April 16, 2022 after 11 months of glioblastoma ([click here](#))

OUR SWEET WENDY RIEGER

WE LOST OUR SMART, VIBRANT, WONDERFUL WENDY RIEGER TODAY.

WENDY LOVED LIFE AS MUCH AS IT LOVED HER. SHE HAD SO MANY PASSIONS AND LIVED LIFE SHARING THEM WITH EVERYONE SHE COULD. FOR MORE THAN 30 YEARS, NBC4 WASHINGTON VIEWERS BENEFITED FROM HER UNIQUE STYLE THAT BLENDED HUMOR, INTELLIGENCE AND COMPASSION, AND WE ARE ALL BETTER FOR KNOWING HER.

WENDY WAS DIAGNOSED WITH BRAIN CANCER ALMOST A YEAR AGO. SHE HAD SURGERY AND TREATMENT, THEN RETIRED IN DECEMBER WITH AN INTENT TO SAVOR THE REST OF HER LIFE AND START A NEW CHAPTER. HER CANCER RETURNED AGGRESSIVELY SEVERAL WEEKS AGO, AND SHE DIED THIS MORNING, HOLDING THE HAND OF HER HUSBAND, DAN.

WE SEND OUR LOVE TO DAN, WHO WAS A COLLEAGUE OF OURS FOR DECADES, AND TO HER BROTHERS, NIECES AND NEPHEWS AND MANY, MANY FRIENDS.

UK - 26 year old Oliver Amess died from Glioblastoma only 20 days after diagnosis, on Jan. 28, 2022 ([click here](#))

The image shows a screenshot of a tweet and a memorial page. The tweet is from Robin Amess (@TaoTeChingWolf) and reads: "A year ago today my wife and I were asked about organ donation. Our beautiful Oli died 28/1/22, but four others survived because of him. @BrainTumourOrg @braintumourrsch @NHSOrganDonor #Glioblastoma". Below the tweet is a photo of a young man with glasses and a beanie, smiling. The memorial page is titled "Oliver Amess" and contains the text: "Our precious Oli, taken suddenly at the age of 26 by an aggressive Glioblastoma brain tumour. You were our light and our life. We were so proud of your achievements in life and even the man you had become. Even more proud of you for the gift of life you gave. we miss you mate and love you forever. Until we meet again Mum and Dad XXXXX." Below the text is a button that says "Back to Book of Remembrance".

4 Canadian fully COVID-19 Vaccinated doctors who died of brain or spinal cancers within about a year or less

All 4 doctors developed brain or spinal cancers after two doses of COVID-19 vaccine.

UK - Teacher and musician, 40 year old James Lamerton died from Glioblastoma 3 months after being diagnosed, in Nov. 2021 ([click here](#))

The teacher and musician from Essex, left behind his wife, Myriam and two-year-old daughter, Layla (Image: Brain Tumour Research / SWNS)

James sadly died in November last year after he was found to have brain tumour in his pineal gland (Image: Brain Tumour Research / SWNS)

My wife was "given the option" to get the shot or not be able to work. We picked Pfizer, and she was diagnosed with a glioblastoma 2 months later and passed away at age 52. This is who was taken from us...Her name was Jo Ann.

Replying to [@FA_x119](#) [@American_proud7](#) and 2 others

My BiL took the shots and was soon diagnosed with inoperable **glioblastoma** that came on rather suddenly. After 2 wks of chemo/radiation it had only exploded and worsened. Two months after diagnosis he was gone. He passed yesterday 💔 Coincidence? Have my doubts.

Martine R.
@romromtin

Sadly my mother in law is one of them, less then 2 months after the Pfizer: epilepsy attack, diagnosis glioblastoma triggered by "something".

Jude RN @Rockenjud · Oct 3, 2021

Last 2 weeks we saw a dramatic increase of patients with brain tumors. One had an mri 2 month ago & it wasn't their. Another, they have no idea what it is. They contacted the CDC & NIH for help. All vaxed. 🤔 never had to contact the CDC before for an unidentified brain tumor.

3:13 AM · Oct 4, 2021

My partner was diagnosed with **glioblastoma**, said it could have been there dormant for years and years, odd it turned aggressive and had a seizure 4 days after the second **Pfizer** shot. My uncle diagnosed with prostate cancer a week after his second **Pfizer** shot.

My Take...

In the post COVID-19 vaccine era, these brain cancer Glioblastomas seem much more aggressive and kill much more quickly. Usually patients would survive on average 1.5 to 2 years, but now they are dying in a matter of weeks or months.

I see a strong signal of COVID-19 Vaccine induced Turbo brain cancers here. These brain tumors behave differently.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”
