July 13, 2023 - As A Top Breast Cancer Surgeon, I Thought I Understood The Disease - But Then I Got It ([click here](#)).

"In 2015, aged just forty, I was diagnosed with stage three breast cancer and suddenly it was my turn to have a mastectomy and implant reconstruction."

"I'm scared of having an operation. Quite a lot of people are. But it's a hard thing to say admit when you're a breast surgeon like me - operating is my life."

This article was recently written by a UK breast cancer surgeon, Dr. Liz O'Riordan.

Here is her Twitter account ([click here](#)).

Here is her website ([click here](#)):

For as long as I can remember, all I've ever wanted to do is help people. It's why I became a breast surgeon. It was ironic that I ended up getting breast cancer. Twice. I was forced to retire at the age of 45 and had to find a new purpose in life.

By speaking and writing about my experiences as a doctor and a patient, I've been able to change the landscape of cancer care. I talk about the things that no-one else will. Sex, death and exercise. My mission is to help cancer patients cope with life outside the hospital by showing health care professionals that it's the little things that matter

MORE ABOUT ME

She has recently been named a Top 20 Oncology Influencer on Twitter (4th to be exact):

Top 20 Oncology Influencers on Twitter in H1 2023

Dr Liz O'Riordan

@Liz_ORiordan

What makes this even more important - being the 4th most influential oncology influencer on Twitter in 2023 is that I'm a PATIENT

As a top Oncologist, Dr. O'Riordan must be on the cutting edge of Turbo Cancer research - surely she is sounding the alarm about COVID-19 mRNA vaccine induced cancers?

Dr Liz O'Riordan   @Liz_ORiordan · Jan 11, 2021

Feel privileged to have had my [#vaccine](#) today as a member of staff [@WestSuffolkNHS](#). I hope everyone will be able to get one soon. [#WearYourMask](#)

Dr Liz O'Riordan  @Liz_ORiordan · Mar 22, 2021

About to get my second **vaccine**. The future is bright. The future is yellow.

Replying to @JayBradley1 @ladylymphoedema and 2 others

It is safe to have blood pressure taken from your breast cancer arm. - old wives tale that you can't. I had covid **booster** in it and flu in the other

Tip

Dr Liz O'Riordan  @Liz_ORiordan · Jan 12, 2022

Developed the strangest rash today. Not itchy. Not sore. @kimbomeek told me that apparently Covid **vaccines** can trigger a 'radiation recall reaction'. My booster was last March but I might have had Covid before Christmas

Her Breast cancer just came back:

 Pinned

 **Dr Liz O'Riordan**  @Liz_ORiordan · Jul 27 ...

 There's no easy way to say this, so I'll get straight to the point.

My breast cancer is back.

I've got another local recurrence.

I found the nodule 3 weeks ago...

My Take...

She is a top breast cancer surgeon and top 20 Oncology influencer on Twitter.

By my count she has taken at least 4 COVID-19 mRNA vaccines and 2 flu shots in the past two years.

Her breast cancer returned last week. Prognosis is poor.

She was recently promoting a new mRNA vaccine for breast cancer ([click here](#)).

COVID-19 mRNA vaccines cause turbo cancers, as well as cancer recurrences in those who were in remission. ([click here](#))

There is no indication that even as a “top breast cancer surgeon” and “top 20 Oncology influencer”, she has any idea that mRNA vaccines are causing cancer.

Since she has no job or medical license to lose, it appears she is a true big pharma believer.

She is dying, very likely from the very experimental mRNA technology she took four times and continues to promote.

And she is none the wiser.

These are our top medical experts.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”
