The bioweapons are working. UK data shows dramatically accelerated dying in all age groups since the middle of 2022.

The SARS CoV2 virus pandemic agenda was rolled out in early 2020. However, despite fear mongering and propaganda, UK total death statistics in 2020 were unremarkable aside from the month of April when there was increased death in mature and older age groups.

The misrepresented and coerced injections were imposed in 2021. Around the world, increased death comes on the heels of the injections.

Despite one red alert after another, the covid machine has continued manipulating, deceiving and injecting people. Two shots, morphed into endless “boosters”.

The UK death statistics for the latter half of 2022 are devastating across all age groups. Even children and young adults have red and crimson alert levels of increased dying.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”
