### My Take...

These graphs are made available by Twitter user [USMortality](#).

What I find interesting is that there seems to be a drop in excess mortality in 2023 in this data.

Ethical Skeptic’s data doesn’t show a dip in excess mortality in 2023, especially for young people:

Excludes:  
 U00-U99 (Codes for special purposes)  
 V01-Y89 (External causes of morbidity and mortality)  
 999-999 (Data not shown due to 6 month lag to account for delays in death certificate completion for certain causes of death.)

## The Cover-up

We have an additional problem.

Countries are starting to change the way excess deaths are calculated, in an effort to hide excess deaths.

Australian Russell Broadbent MP today (May 14, 2024) questioned the sleight of hand by the Australian Bureau of Statistics in calculating excess deaths.

The model has been revised twice and now excess deaths are down from 56058 to 24351 for 2020 - 2023. The ABS has not been transparent about this complicated new model which rewrites the history of the Pandemic.

UK has also changed the way it calculates Excess Deaths:

Russell Brand posted this on Feb. 23, 2024 and it's hilarious.

# Covid jabs may be to blame for increase in excess deaths

Experts call for more research into side effects and any possible links to mortality rates

By Sarah Knapton SCIENCE EDITOR

COVID vaccines may be partly to blame for a rise in excess deaths since the pandemic, scientists have suggested.

Researchers from the Netherlands analysed data from 47 Western countries and discovered there had been more than three million excess deaths since 2020, with the trend continuing despite the rollout of vaccines and containment measures.

Experts said the “unprecedented” figures “raised serious concerns” and called on governments to fully investigate the underlying causes, including possible vaccine harms.

Writing in *BMJ Public Health*, the authors from Vrije Universiteit Amsterdam, said: “Although Covid-19 vaccines were provided to guard civilians from suffering morbidity and mortality by the Covid-19 virus, suspected adverse events have been documented.

lion in 2021 and 800,000 and 2022 after measures were implemented.

Researchers said the figure included deaths from Covid-19, but also the “indirect effects of the health strategies to address the virus spread and infection”.

They warned that side effects linked to the Covid vaccine have included ischaemic stroke, acute coronary syndrome and brain haemorrhage, cardiovascular diseases, coagulation, haemorrhages, gastrointestinal events and blood clotting.

German researchers have pointed out that the onset of excess mortality in early 2021 in the country coincided with the rollout of vaccines which, the team said, “warranted further investigation”.

However, more recent data regarding side effects have not been made available to the public, the experts warned.

Researchers said that it was “likely” that the impact of containment measures, restricted healthcare and socioeconomic upheaval during the pandemic had contributed to deaths, although accepted that was difficult to prove.

Gordon Wishart, chief medical officer at Check4Cancer, and visiting professor of cancer surgery at Anglia Ruskin University, said: “It was pre-

## **The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity**

**by Michel Chossudovsky**

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

*“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”*

### **Reviews**

*This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —**Dr. Mike Yeadon***

*In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky’s book is a rock upon which to sustain our fight. —**Dr. Emanuel Garcia***

*In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test - which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists. —**Peter Koenig***

*Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. —**David Skripac***

*A reading of Chossudovsky’s book provides a comprehensive lesson in how there is a global coup d’état under way called “The Great Reset” that if not resisted and defeated by freedom*

*loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it's too late. You will not find so much valuable information and analysis in one place. -Edward Curtin*
