

Who is Ryan Routh? The “Ukrainian Trace” in the Trump Assassination Attempt

The suspect is a Ukro-maniac who'd been radicalized by the Mainstream Media into traveling to Kiev, trying to join the “International Legion”, and even recruiting former Afghan soldiers for it.

The authorities detained a man on Sunday who attempted to assassinate presidential frontrunner Donald Trump at his golf course in Florida. He was caught with an AK-47, a scope, and a GoPro camera. It turns out that he's also fairly well known, being a former construction worker-turned-mercenary by the name of Ryan Routh. The [New York Times](#) even reported on him in spring 2023, mentioning that he'd spent some time in Kiev and was actively recruiting Afghan soldiers who fled to Pakistan as refugees.

[CNN](#) confirmed that he posted on social media shortly after the special operation began that

“I AM WILLING TO FLY TO KRAKOW AND GO TO THE BORDER OF UKRAINE TO VOLUNTEER AND FIGHT AND DIE...Can I be the example We must win.”

Routh also [criticized](#) Trump for wanting to “MASA...make Americans slaves again master”, among other rants against the former president. Quite clearly, he drank the Kool-Aid and was convinced that Trump was a ‘threat to democracy’ and likely also a ‘Russian agent’.

In many ways, his profile closely resembles that of the political extremist who was radicalized by the Mainstream Media into thinking similar falsehoods about Slovak Prime Minister Robert Fico, which drove him to try to kill the incumbent last spring in an [assassination attempt](#) that he only narrowly survived.

Both were obsessed with Ukraine, but Routh's connection to it wasn't just as a bystander, but as a participant in NATO's proxy war on Russia given his time in Kiev and recruitment of mercenaries for it.

He was also almost certainly a member of “NAFO” too, the global troll network that's connected to the Ukrainian, American, and other Western governments as documented by investigative journalists [Moss Robeson](#) and [Alex Rubinstein](#), among others. The latter's colleague [Max Blumenthal](#) also shared some brief additional insight into Routh's ties with Ukraine's “International Legion”. Those mercenaries are backed by the US Government, thus linking him to them as well.

The Ukrainian trace in the latest Trump assassination attempt is therefore impossible to ignore, as is the one to members of the US' permanent military, intelligence, and diplomatic bureaucracies (“deep state”), particularly those with a stake in perpetuating NATO's proxy

war on Russia through that country.

Trump has made the swift resolution of that conflict through diplomatic means a hallmark of his election platform, and his running mate [JD Vance](#) recently explained how that could work.

The [gist](#) is to freeze the conflict along the Line of Contact, heavily fortify the frontier (presumably in coordination with the many NATO members with whom Ukraine already signed “security guarantee” agreements), and then restore its neutrality in order to alleviate Russia’s concerns about NATO. For as pragmatic as this may sound to an average observer, it’s anathema to the maximalist goals of what can be described as the Ukro-maniacs, or those who’ve become politically radicalized in support of Kiev.

At the very least, the Mainstream Media’s false portrayal of Trump as a ‘Russian-backed threat to democracy who’s selling out Ukraine to Putin’ is enough to push psychologically at-risk Ukro-maniacs into committing acts of terrorism, especially when they’re being egged on by fellow extremists in “NAFO”. That global troll network is infamous for glorifying violence, and it’s an echo chamber for reinforcing people’s delusions about Trump, Ukraine, and Russia, up to the point of inciting violence too.

There’s no way that the earlier mentioned American “deep state” had no idea who Routh was after he’d already traveled to Kiev to try to join the “International Legion” and then openly told the New York Times about his plans to recruit Afghan soldiers that fled to Pakistan as refugees. He also brazenly boasted about how he’d purchase passports for them from there to facilitate their travel to Ukraine. The FBI might soon “do the meme” and admit that he was “on their radar”, but there’s much more to it.

Routh was arguably acting as an asset of that same American “deep state” in collusion with their Ukrainian proxies, and it therefore can’t be ruled out that members of one, the other, or both might have encouraged him – even if only indirectly – into taking Trump out in order to “help the cause”. This latest assassination attempt is therefore even more scandalous [than the first](#) from a few months back, but just like that one, it too might soon be memory-holed because it implicates Democrat-aligned forces.
