Democracy in America isn't "messy" the way some duopoly power insiders portray it. It's nonexistent, policymakers ignoring the will of the people and their welfare entirely.

Events in Philadelphia alone expose how America is run, for its privileged class alone – flagrant electoral rigging anointing a party standard bearer belonging in prison, not high office.

Hillary is the most widely reviled Democrat in party history – beyond rehabilitation no matter how hard DNC handlers try reinventing her.

“I just don't see how her numbers at this late date are going to improve on the likability issue or the trust factor,” University of Virginia's Miller Center presidential studies director Barbara Perry explained.

Scandals since the 1990s made her damaged goods, most voters believing she's a self-serving corporate shill, a law breaker not to be trusted – exposed electoral rigging the latest example.

She didn't win her party's nomination. It was handed to her, party bosses choosing her for standard bearer before campaigning began last year. Sanders never had a chance and he knew it.

Endorsements from party notables can't erase her Lady MacBeth image, her Machiavellian history, her high crimes too serious to paper over.

On Wednesday night, Obama gave it his best shot, his usual demagoguery, substituting fiction for facts, a deplorable display like all his speeches.

One anti-populist war criminal praised another. Obama turned truth on its head, “say(ing) with confidence there has never been a man or a woman more qualified than Hillary Clinton to serve as President of the United States of America.”

The possibility of a neocon lunatic Sino/Russia hating war criminal/racketeer becoming US president should terrify everyone.

Outside Philadelphia's Wells Fargo Center, thousands protested. Police reacted violently as expected. Free speech and assembly are more myths than fundamental rights.

At stake is freedom v. fascism, the last vestiges of a free society disappearing in plain sight, tyranny replacing it no matter who succeeds Obama - already with a firm foothold controlling things.

What's coming? Perpetual wars for conquest and dominance, harsher neoliberal pain and suffering for ordinary Americans while super-rich ones get richer, Wall Street and other corporate interests more dominant than ever, and militarized police terrorizing nonbelievers.

Humanity trembles at what's coming once a new administration assumes power next January. All bets are off if Hillary heads it - the possibility of world war elevated to a high probability under her leadership.
