Region: [USA](#)

Theme: [Science and Medicine](#)

At least thirty US school children whose parents were told the COVID mRNA shots were “safe and effective” died suddenly and unexpectedly in the US this week as the death toll continues surging among the vaccinated and boosted.

Many of the children died of medical emergencies including cardiac arrest and strokes as doctors warn they are now regularly witnessing “*once-in-a-lifetime*” disorders in children.

“This is the new normal... turbo cancers, died suddenly. My friend lost three friends in one week! Turbo cancers like this were virtually non-existent before the COVID shots,” explained MIT scientist and vaccine researcher, Steve Kirsch.

How long before we as a society can have an open and honest discussion about what is happening to the Covid-vaccinated before our eyes?

Lillian Costello

13-year-old Lillian Costello of Norton, died suddenly and unexpectedly on Tuesday at the Sturdy Memorial Hospital in Attleboro.

According to a [GoFundMe](#) fundraiser, Lilly was a seventh-grade student at the Norton Middle School and a proud member of the Student Council. She also enjoyed being a member of the Photography Club and participated in cheerleading.

Finley Kruchten

Finley Kruchten suffered a “*massive pulmonary embolism*” while in class at Denmark High School in early October, according to his family’s [GoFundMe](#) page.

Finley was taken to Northside Forsyth Hospital and then to Northside Gwinnett Hospital where he was pronounced dead.

Lucy Nash

Kentucky fourth grader Lucy Nash died suddenly and unexpectedly after suffering a cardiac arrest.

“On the first day of school Lucy collapsed and had a cardiac event,” a [GoFundMe page](#) for the family reads. “Her little brain went many minutes without oxygen while they were trying to save her life.”

Ovet Gomez-Regalado

Ovet Gomez-Regalado, a 15-year-old Kansas high school student, [died two days after suffering a medical emergency](#). The football player collapsed suddenly on the field at practice.

The 15-year-old collapsed and died after performing 40 minutes of light drills, according to the school district in Hopewell, Virginia.

Leslie Noble

Meanwhile, staff at Franklin High School, Baltimore are mourning the sudden loss of 16-year-old Leslie Noble, a member of the school's football team.

The teen [died while participating in light drills during the first practice of the season](#) on Wednesday in Reisterstown and experiencing a medical emergency.

"I saw a bunch of firetrucks, ambulances, and all I knew was they said that a child had collapsed on the field," said Sharon Johnson, a staff member at Franklin High School.

Unfortunately, the long list of deaths continues, including unnamed victims whose families have requested their identities remain anonymous due to their age.

For example, a 14-year-old girl whose family requested anonymity suffered a medical emergency during a PE class in Houston. According to Marshall Middle School:

"Today was a very difficult day for the Marshall MS community. A student at Marshall Middle School suffered a medical emergency on campus today. EMS responded to the school quickly and the student was transported to the hospital. The student's parents were quickly notified and responded to the school."

However, in an email to parents, provided to us by a Marshall Middle School parent, the principal said,

"One of our eighth-grade students died. This loss is sure to raise many emotions, concerns, and questions for our entire school, especially our students."

Many questions, indeed.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”

Reviews

This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon

In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky’s book is a rock upon which to sustain our fight. —Dr. Emanuel Garcia

In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test – which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists. —Peter Koenig

Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. —David Skripac

A reading of Chossudovsky’s book provides a comprehensive lesson in how there is a global

coup d'état under way called "The Great Reset" that if not resisted and defeated by freedom loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it's too late. You will not find so much valuable information and analysis in one place. -Edward Curtin
