

# US “Unofficially” Waging War on Russia Without a Formal “Declaration of War”

By [Stephen Lendman](#)

Global Research, December 12, 2015

*Washington’s undeclared war on Russia (and China) is the greatest threat to world peace, risking the unthinkable – possible nuclear war.*

*Both countries stand in the way of unchallenged US global dominance – allied with NATO partners (mainly Britain, France, Germany and Turkey), Israel and the Middle East regimes led by Saudi Arabia, a metastasizing cancer masquerading as a nation-state.*

*Two major flashpoint areas risk igniting global war – Ukraine and Syria.*

*Washington transformed Kiev into a de facto Neo-Nazi regime (for the first time in Europe since WW II) – used as a dagger targeting Russia’s heartland, along with other Eastern European countries close to its border.*

*Preserving Syrian sovereign independence is the lynchpin of preventing Iran’s isolation and the entire region from becoming a US/Israeli colony, partnered with ruling Saudi tyrants using ISIS and other terrorist groups partnered with Washington to ravage Syria, Iraq and Yemen, ahead of what increasingly looks like an inevitable US/Russia clash.*

On December 15, John Kerry will meet with Vladimir Putin and Sergey Lavrov in Moscow. Ongoing conflicts in Syria and Ukraine will be discussed – both countries at odds on resolving them.

Russia’s supports nation-state sovereignty, America wants all independent governments replaced by pro-Western ones it controls – using ISIS and other terrorist groups to achieve its objectives.

Next week’s meeting between US and Russian officials will resolve nothing, not as long as Washington’s hegemonic aims remain unchanged.

Russia’s Foreign Ministry called US/Moscow relations “difficult,” citing Washington’s “confrontational steps...under the pretext of the Ukrainian crisis.” They negatively “impacted cooperation between (both) countries.”

US support for ISIS and other terrorist groups in Syria, Iraq and elsewhere further exacerbated relations. Nothing in prospect suggests positive change.

“...Russia has been consistently stressing the necessity to observe the principles of equality, mutual respect and non-interference into (the) domestic affairs” of all nations, its Foreign Ministry said.

Moscow's hope for better US/Russian relations furthered by Kerry's upcoming visit is more pipe dream than reality.

Kerry heads to Moscow after a planned December 14 meeting in Paris with European and Arab foreign ministers. They'll discuss ongoing Middle East conflicts, plotting strategy to continue them and ways to subvert Russia's war on terrorism.

Separately, interviewed by Spanish EFE news on Friday, Bashar al-Assad stressed Washington, its NATO partners and regional allies aren't serious about fighting terrorism. They're the problem, not the solution.

Russia's intervention alone achieved progress, Washington trying to subvert it. The struggle for Syria's soul continues, along with Putin's efforts to save humanity from the scourge of another global war. He deserves universal support against US-led pure evil.
