The COVID tyranny is on the retreat! The UK Office for National Statistics admits just 6,000 people died of Covid-19 in England and Wales between Feb 2020 and Dec 2021. This is less than the rate of those killed in car accidents. And for that the Government closed down the entire economy with catastrophic bankruptcies, suicides, loss of income and pensions and closed hospitals resulting in untreated cancer and other deadly conditions and the release of hospital patients into care homes where record deaths occurred from covid infections.

In response to a freedom of information request the Office for National Statistics has admitted that just 6,183 people actually died of Covid-19 in England and Wales between February 1st 2020 and 31st December 2021, exposing the 150,000 death toll as an extraordinary (but long reported on Freenations) lie.... See [this](#).

This was not a real pandemic. Even taking the completely flawed definition of a COVID death (both the American CDC and the British Office for National Statistics are now admitting they have been fraudulent), Infection Survival rates have been extremely high. As of 3/12/2021

AGE GROUP	INFECTION FATALITY RATE
0-19	0.0013%
20-29	0.0088%
30-39	0.021%
40-49	0.042%
50-59	0.14%
60-69	0.65%
70-90	4.0%

Disastrous vaccination programme

Deaths following vaccination in the USA, UK and EU have now reached some 50,000 with millions of adverse reactions, half of them serious. In the UK the evidence is surely now incontrovertible - that the rise and fall in UK vaccination levels produces the rise and fall in COVID infections.

Between 10th December and 21st December the booster daily rate rose by 125%. This was followed by a 142% increase in cases between 21st December and 4th January.

The reverse has also proven to be the case for as the booster rate fell by 85% between 21st December and 3rd January so there followed a big fall of 67% in COVID cases between 4th January and 16th January.

There has been a further rise in booster take up between 2nd January (111,000 per day) and 8th January (235,000) which produced a rise in infections between 16th January (74,494 infections) and 19th January (108,069 infections) - another direct linkage!

Nor can the Government claim a saving of lives for since the booster programme started on 1st October daily deaths doubled between 14th October and 8th January.

NHS forced vaccinations

As the deadline for NHS "frontline" staff to be vaccinated looms it is worth recording not only the many conventions, declarations and standards of international medical practise which forbid compulsory or coerced vaccinations but also the recent statement

from the World Health Organisation *"if mandatory vaccination is considered necessary to interrupt transmission chains and prevent harm to others, there should be sufficient evidence that the vaccine is efficacious in preventing serious infection and/or transmission."*

But we know that the vaccines prevent neither infection nor infectiousness and recent

statistics from the UK Government demonstrate that by weeks 49 to 52 of 2021 all age groups which have been triple vaccinated show an immune system performance far inferior to the unvaccinated (between 7% and 60% according to age group).

Other statistics from the UK Health Security Agency Covid-19 vaccine surveillance report Week 42 Page 13 show covid cases in the vaccinated between 27% and 124% higher than the unvaccinated. COVID cases:

Age	Two doses per 100,000	Unvaxed per 100,000	VAXED % higher
30-39	956	751	27%
40-49	1,731	772	124%
50-59	1,075	528	103%
60-69	704	347	102%
70-79	537	267	101%
over 80	406	304	33%

The UK's Office for National Statistics admit a large increase in deaths among 15-19 year old males since vaccination was rolled out for that age group.

- May-Dec, 2020: 257 deaths
- May-Dec, 2021: 402 deaths (of which 2 deaths were due to covid)

There are thousands of immunology experts, researchers and medical practitioners who know these dangers and reject the vaccination programme. In a great embarrassment for the British Government an NHS doctor was filmed telling the Health Secretary why he would not be vaccinated.

In the light of this evidence and the quite clear statements of the Council of Europe, UNESCO, the Geneva Convention and the Nuremberg Code politicians who press ahead with the compulsory vaccinations for health care staff are courting serious legal liability - in addition to the thousands of doctors and nurses who will resign rather than be vaccinated (they have witnessed too many deaths and too much suffering among those who have been vaccinated).

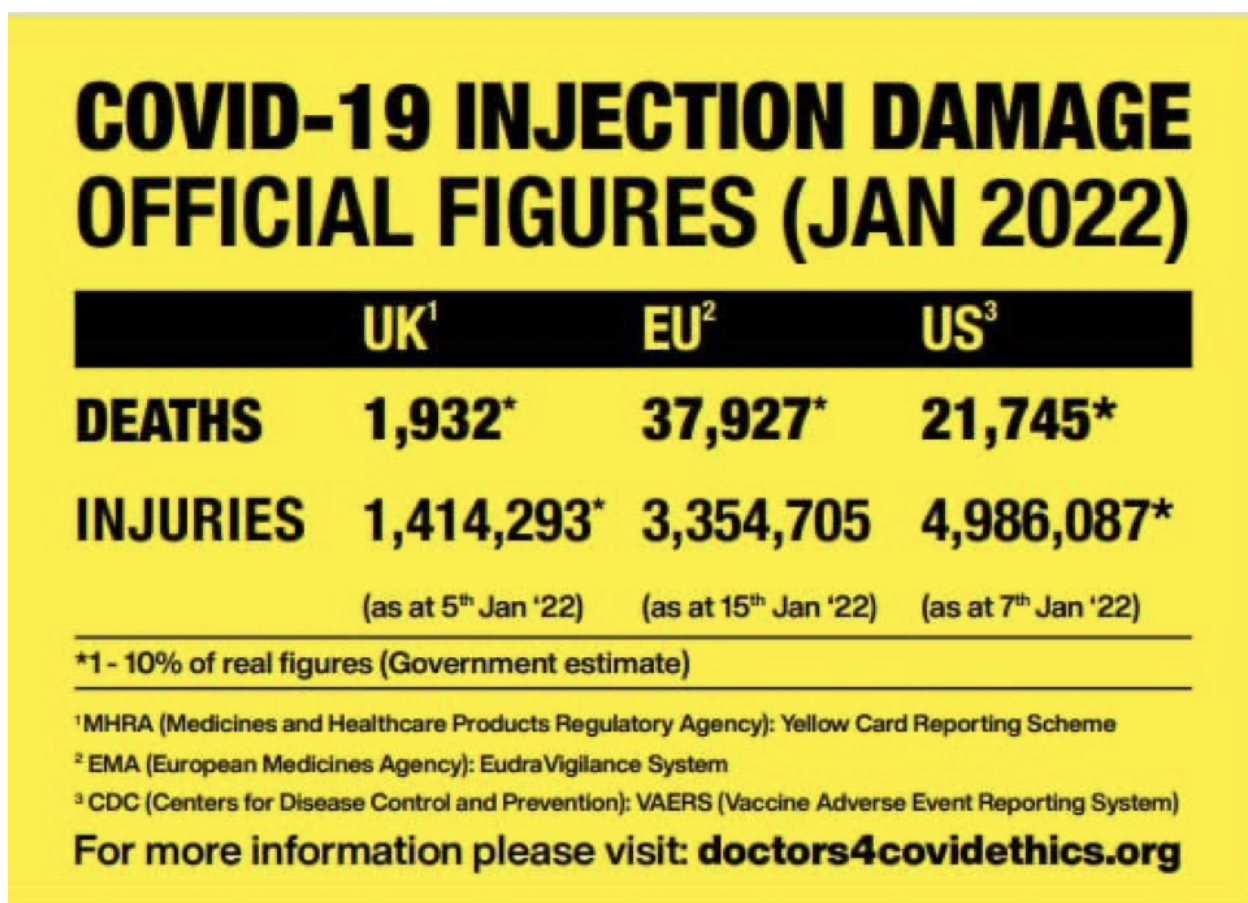

Australian dictatorship proves a disaster

Australian politicians have instituted some the most draconian and anti democratic controls and vaccine mandates on their people - and yet 69% of New South Wales hospitalisations are of the vaccinated and the post vaccination deaths have reached an historic peak.

Australia's vaccine fanatics have certainly been proven wrong. Since the rapid increase in the Australian's vaccination programme in the latter part of 2021 covid infections rose from 31,000 on 15th July to over 2 million on 21st January (a 6,600% increase). A familiar pattern

in other countries as readers of Freenations will know from past posts. But a pattern the vaccine fanatics and criminal political and media establishments ignore, deny and censor!

Worldwide vaccine deaths and injuries

The above table, while it may contain duplicates also gives figures which (as the table rightly notes) could be between 1% and 10% of the actual figures. It is very time consuming to fill in a VAERS (USA) or Yellow Card (UK) report and doctors are busy. And those who die after vaccination in their own homes are often reliant on their grieving relatives to 1. link the death with the vaccine and 2. persuade doctors to make a report.

Foetal deaths and airline pilot deaths

In the USA up to 31st December 2021 3,147 foetal deaths were recorded following COVID vaccinations among pregnant women or women who became pregnant shortly after receiving a vaccination. This is certainly also a big under-reported number.

It has been well established that the vaccines have caused abnormalities in women's menstrual cycle and the tragic deaths of pregnant women or their babies are well documented. See [this](#).

One of the many tragic deaths was reported by Stephanie Dias Whitmore who received a Pfizer 1st Dose 13th September, 2nd Dose 4th October 2021 and her perfectly healthy baby up to that point died on 9th October from a blood clot in the brain. See [this](#).

"Giving a still birth to my daughter was one of the most traumatic things I have experienced in my life and I would never wish this upon anyone. I have asked my friends to please think twice if you are pregnant, from someone who believed this was

the right thing to do, I never thought this would happen”

Also in the USA the life assurance industry has observed a big increase in the death rate among the 18- 64 age group. They say the 40% rise is unprecedented. Unlike politicians and medical professionals life insurance companies actually suffer financially when deaths occur and their entire business requires constant actuarial assessment of the probability of death. See [this](#).

The head of Indianapolis-based insurance company OneAmerica said:

“We are seeing, right now, the highest death rates we have seen in the history of this business – not just at OneAmerica,” the company’s CEO Scott Davison said during an online news conference this week. “The data is consistent across every player in that business.”

“and that’s it’s not elderly people who are dying, but “primarily working-age people 18 to 64” who are the employees of companies that have group life insurance plans through OneAmerica. Just to give you an idea of how bad that is, a three-sigma or a one-in-200-year catastrophe would be 10% increase over pre-pandemic,” he said. “So 40% is just unheard of.”

One of the biggest compulsory vaccination programmes in the USA was for airline pilots. As a result hundreds have died: – see the table. As with otherwise healthy young footballers collapsing and dying this is no coincidence.

IN MEMORIAM

“To fly west, my friend, is a flight we all must take for a final check.”

Taking vaccine is suicidal says French court

NO wonder a French Court has ruled that taking a COVID vaccination which results in death is a suicide (and therefore the insurance company did not have to pay out on the policy of the insured!)

The Insurance company refused to pay out because the taking of experimental drugs, treatments, etc., is excluded from the policy. The judge said

“the experimental vaccine side effects are publicised and the deceased could not claim not to have known about them when he voluntarily took the jab. There is no law or

mandate in France (at the time) which forced him to be jabbed. Therefore, his death is essentially suicide”.

And Suicide is of course excluded from his policy. See [this](#).

Triple vaccinated far worse immunity than unvaccinated

As mentioned above UK deaths are far more likely to occur among the triple vaccinated with the immune systems of the vaccinated massively underperforming the immune systems of the unvaccinated (see final column)

Age Group	Immune System Performance Week 33-36 Month 1 (A)	Immune System Performance Week 37-40 Month 2 (B)	Immune System Performance Week 41-44 Month 3 (C)	Immune System Performance Week 45-48 Month 4 (D)	Immune System Performance Week 49-52 Month 5 (E)
18-29	+51%	+33%	+13%	+5%	-55%
30-39	+26%	-14%	-27%	-33%	-58%
40-49	-26%	-52%	-56%	-55%	-60%
50-59	-28%	-46%	-54%	-47%	-55%
60-69	-32%	-47%	-54%	-36%	-47%
70-79	-28%	-44%	-46%	+27%	-36%
80+	+3%	-18%	-8%	+47%	-7%

See [this](#).

Booster farce

There have been many (unreported on the msm) examples of the deaths of footballers, pregnant women, babies and those vaccine fanatics who have attacked the unvaccinated but have then died after their own vaccination. Recently on Brazilian television Rafael Silva a presenter collapsed and was taken to hospital, having received his booster some days before. The TV presenter boasted on social media that he had received the COVID booster shot. “Long live the Third dose. I’m sorry for people who don’t have this opportunity. Vaccines save Lives.”

See [this](#).

Fewer UK calls for boosters now

There have been far fewer calls by politicians to get Booster jabs recently. Perhaps they are becoming aware of the catastrophic results of those boosters which have produced a big rise in cases and have resulted in more deaths than before they started, rising from 127 deaths per day at the end of September to 438 deaths per day by the 18th January.

Now even the EU Drugs Regulator is warning about Boosters: “Boosters compromise the immune system. Repeated boosters are dangerous.”

See [this](#).

Gradually the whole conduct and claims of the medical and political authorities are beginning to unravel. The fanatics are on the retreat. Biden has lost two important cases taken against forced vaccination. Johnson is radically reducing COVID restrictions, there are several well documented and expert supported cases reaching the national and international courts naming leading medical regulators, Governments and doctors as

defendants.

Now the reckoning! The globalist corporatist authoritarians who have exploited the virus for purposes of political and economic hegemony are at last on the defensive. They must be pursued and prosecuted.
