Richard Gage and **Barbara Honegger** were recently on a European tour entitled “9/11 Justice: Every Nation, Every Citizen”. Driving into Brussels, they passed by the \$ 1.4 Billion new NATO HQ, and Barbara discovered that on May 25th 2017, President Trump had been there to dedicate a piece of twisted steel from the not yet judicially investigated crime scene of the explosive destruction of the twin towers called the “[9/11 and Article 5 Memorial](#)”.

Richard’s and Barbara’s purpose of coming to Europe was to ask Europeans to help come to the rescue of a better trans-Atlantic alliance, this time strengthened by truth and factual evidence on (f.ex.) what happened on 9/11, and not on a mythical narrative that seems to have been ‘successfully’ used to coax the European NATO allies into a shameful series of Post-911 wars.

As a Scandinavian doctor working in Brussels, I have been perplexed to see how our European leaders have refused to question the official story, without legal forensic facts, that was used to invoke Article 5 for the first time in the history of the NATO treaty: it was done two days after Sept 11th 2001, based upon the “Osama Bin Laden did it” narrative that the Bush administration assured was truthful. Since then, for example Denmark, which had not been at war since 1864 (it was neutral in the 1st WW, and neutral when it got run over - without hardly a gun-shot- by the Germans on April 9th 1940) has suffered more soldier casualties per capita than any other coalition partner.

From the position of more than 3000 professional architects of Richard Gage's www.AE911Truth.org, and strengthened now by a group of highly professional Lawyers www.LCfor911.org (represented in Brussels by former White House Policy Analyst, and long time Navy senior journalist Barbara Honegger) the duo gave an important Radio interview [on French speaking Radio Campus of the ULB university, which has as its motto "Scienza vincere tenebras" (Knowledge conquers darkness: the radio-show can be listened to even if you do not speak French) [here is the link!](#)] to explain how the "Lawyer's Committee for 9/11 Inquiry" has now filed a Petition with the U. S. Attorney in the Southern District of New York formally requesting, pursuant to federal statute, that he present to a special grand jury extensive evidence of thus-far unprosecuted federal crimes relating to the destruction of three World Trade Center (WTC) Towers on 9/11/01.

More importantly, they gave a Press Conference addressed to the Europeans, as it is in our highest interest that our Trans-Atlantic Alliance be strengthened by intelligent adults of good-will who deal with the real factual world. (Read how unfortunately at present P2OG is part of official Pentagon policy to mislead the media of the Western alliance, along with various variations of Gladio operations.)

We were sorry to note that no big media showed up at this Press Conference, given in the main Press Room of the Brussels Info Place, Place Royal 11, the same building that houses the Government of Brussels. It is therefore of utmost importance that Independent Media Outlets relay this Press Conference, so that a larger extent of European and International decision makers become aware of this important reality that Europe has been spending the blood of its soldiers and large amounts of wealth on a series of wars that were invoked by an erroneous, or worse, deceitful narrative that set off NATO's Article 5 for mutual defence of an attacked ally, for the very first time.

Here are 3 links to the historic Press Conference: do not hesitate to save a copy to your hard drive, as this is a truly ground breaking interview for Europe.

Global Research on medical matters, but with the current increase in deceitful provocations that the even many of his well-liked high ranking patients do not seem to understand, he takes the 11th of the month off from his medical duties, to inform the elites about the criminal "inside job" nature of September 11th 2001. Most citizens are well aware of this, but apparently not the elite, and not the journalists, as they have vested so much of their credibility in denying what is self-evident for a 10-year-old with an intuitively correct understanding of the laws of Physics.
