Joe Biden’s COVID ‘czar’ declared Tuesday during a White House press briefing that “God gave you two arms” so we can all be injected with different vaccines.

Dr. Ashish Jha made the statement while simultaneously pushing COVID booster shots and flu shots as if they are the same thing.

“Get one in each arm if you want,” Jha proclaimed.

The COVID shot contains experimental mRNA. Most people have many times greater protection from having had the virus and recovered, whereas the flu shot is a traditional vaccine backed by years of research and data.

To lump these two vaccines together in a 2 for 1 type campaign is at best disingenuous.

It isn’t the first time Jha has made the “God gave you two arms” comment, he also used it back in September, noting that he “really believes” that is why humans have two arms:

Elsewhere during Tuesday’s briefing, Jha told Americans they will need to get yet another Covid vaccine next year.

“We’re probably gonna need to update our vaccine again next year and have Americans get vaccinated again next year,” Jha asserted, calling the COVID vaccine a “once a year shot.”

The five jabs from the past year isn’t enough. Get more.

He also encouraged people to push vaccines on their families “around the Thanksgiving table,”:

“If folks get their updated vaccines, and they get treated, if they have a breakthrough infection, we can prevent essentially every COVID death in America,” Jah said.

Breakthrough infections are no longer a dangerous conspiracy theory, they’re now a good thing apparently.

During the same presser, The White House Press Secretary immediately shut down a reporter who attempted to ask Anthony Fauci a question about the origin of COVID:

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”
