Watch **Mislav Kolakusic**, Croatian lawyer and Independent MEP talks about [Mrs Von der Leyen, President of the EUC, known as Mrs 4.5 billion doses](#).

## In recent developments “EU corruption hunters are [now officially investigating von der Leyen](#)“

For Commission President Ursula von der Leyen, [the news that the European Public Prosecutor’s Office](#) is investigating her on suspicion of interference in public office, destruction of text messages, corruption and conflicts of interest may come at an inopportune time. After all, Mrs von der Leyen is in the middle of the EU election campaign.

### **Billions in damage caused by illegal agreements?**

Various [media report](#) that the EU corruption hunters have taken over a case that originally originated in Belgium at the instigation of several EU member states and a group of MEPs. The case concerns allegations from the time of the pandemic and a more than questionable procurement of vaccines, in which Mrs von der Leyen is said to have intervened without having a mandate to do so. This involves several billion euros of damage that could have been caused to the European Union.

## When will the CDU call on Mrs von der Leyen to renounce her election campaign?

It would be advisable for the German CDU to follow the example of other parties in the German Bundestag. In the event of misdemeanours by their members, they would press for the immediate resignation of the parties involved or at least for them to renounce their election campaigns. In any case, we consider Mrs von der Leyen's actions to be highly criminal and irresponsible. (April 2024)
