THE FACE MASK

Ample scientific literature. Medical consensus (shared by Dr. Fauci) until it was repealed by government directives.

By wearing a mask, the exhaled viruses will not be able to escape and will concentrate in the nasal passages, enter the olfactory nerves and travel into the brain.”

Researchers found that about a third of the workers developed headaches with use of the mask, most had preexisting headaches that were worsened by the mask wearing, and 60% required pain medications for relief. As to the cause of the headaches, while straps and pressure from the mask could be causative, the bulk of the evidence points toward hypoxia and/or hypercapnia as the cause. That is, a reduction in blood oxygenation (hypoxia) or an elevation in blood CO₂ (hypercapnia).

By wearing a mask, the exhaled viruses will not be able to escape and will concentrate in the nasal passages, enter the olfactory nerves and travel into the brain.” **Dr. Russell Blaylock**,

FACE MASK

SOCIAL DISTANCING

Social distancing in the case of Covid-19 is based on tenuous scientific norms. it disrupts social gatherings, family relations, sport and cultural events. And it is enforced by police state methods.
