America's Daily Report's Christina Aguayo interviews Dr. Shiva Ayyadurai on the discourse surrounding Trump's handling of the COVID-19 outbreak in the US and the role of Dr. Fauci, Dr. Birx, Bill Gates, the Clintons and the WHO.

“Unfortunately this guy Fauci has been in this environment for nearly 4 decades across multiple presidents and is essentially embedded in this scientific establishment which has created an unfortunate lie about the immune system and an unfortunate lie about the solution to this coronavirus or more importantly infectious disease without any real emphasis which is a real issue about the fact that it is an overactive dysfunctional weakened immune system that overreacts and that’s what causes damage to the body. And unfortunately Fauci has not talked about that because the truth of that leads to a solution which has nothing to do with mandating vaccines and shutting down the country.” -Dr. Shiva Ayyadurai
