*German Medical Doctor **Katrin Korb** discusses COVID-19, the lockdown and the vaccine during a protest held in Oldeburg.*

Below is the transcript of her speech.

Dear fellow citizens,

I'm thankful for being able to stand here today. My name is Katrin Korb, I have 3 children and I'm a doctor here in Oldenburg.

I'm standing here because I feel the responsibility for the health of my parents, my children and myself.

I stand here because I am furious about the attempts to get more control over people, by attacking them with fear. I am not sure what happens exactly, though I'm sure it has to do with money and power.

Firstly, I recognize this principle. It's the principle of our health-care system! A system which unfortunately is guilty of spreading fear in order to earn money. This fear is on both our sides, my side as a doctor, but also my patients.

There are guidelines I have to follow, guidelines for various health problems. But who is writing these guidelines?

I will give you an example: There is a European guideline for heart diseases. There are 25 different authors who draft these guidelines, 19 of which are funded by the pharmaceutical industry. They call it an 'advisory fee'.

The guidelines state that I must prescribe medications that have a lot of side effects but that do not make people better. This makes a lot of money. If I don't follow these guidelines and something happens to these people; for example, the situation is deteriorating for whatever reason, then I will be held responsible for that. So, fear is cultivated so that I have to act against my professional beliefs.

The sick people are also frightened; "if you do not take these pills you will have a heart attack". "Then you will become even sicker". "Listen to me; I can know, I studied for it."

“You are not sensible enough to think for yourself”. “There is therefore no room to discuss this.”

As a result, people fear taking this medication day after day, week to week, year to year, which makes a lot of money. That’s the way.

Since the beginning of this corona virus, we have been kept in a kind of shock from the frightening messages. Our governments say there is a new virus so terribly dangerous that millions will die, if we don’t protect you! “We know best what is good for you because we have experts.” You cannot make a decision for yourself. You are too stupid for that. “We have to isolate you, take away your rights and silent you by putting on a muzzle. But we really do this for your protection”. “We frighten you so much every day through the most horrible reports that you won’t even dare to ask yourself if it’s all right”.

The mantra of the authorities is: Only when we have a vaccination can we return to “a normal”.

In other words, only a vaccination can give us back our fundamental rights.

This week, **Mrs. von den Leyen** (EU) has collected E 7.4 billion worldwide for the development and distribution of such a vaccine. Also Germany has paid E525,000. Normally, the development of such a vaccination takes years. That’s because security investigations need to be done.

This new virus from the corona family was discovered less than six months ago but experiments with “MRNA” are already being tried on humans. This is unknown genetic material that will be injected into our cells. You don’t have to be a doctor to get an ominous feeling about this. I will not be vaccinated, I will not get my children vaccinated, and I will also advise my patients not to do this!

Paragraph Two of the Constitution does NOT specify: RIGHT TO HEALTH but right to physical integrity. That is a very big difference. So there is no right to health!

Being sick is part of our human life, but no one should inflict physical harm on us even with a dubious vaccine.

We are the ones paying for this. We already pay for the scientific and social impact of the lockdowns. OUR TAX MONEY is spent for this. And a vaccine must be financed with our tax money! Already E 525 million German tax money and this is only the beginning. Are we being asked if we want to do this? Are we asked if we want to pay for Lockdowns? NO!

All this money, the taxes we’ve paid, we want that to be spent on other things. For good education for our children, for the development of new technologies for the environment, for decent wages for employees in our “vital” professionals. For immigration of people who fled from the war. For sports, culture, etc., etc... This list is endless. In short, for things that make and keep people healthy. But with this no money can be made.

We are in a crisis. What is the way out of this crisis?

The victory over fear is the way out of this crisis.

People who can think for themselves, being creative, take responsibility for themselves working on their own health and the health of our world.

People who are positive, who have friends, who enjoy life, do not get sick easily.

And if they do get sick, they eventually unite with death.

Knowing that life in this world will ever end and are at peace with it.

You can't scare these kinds of people.

You have no power over these people.

This body has only been borrowed and someday I will have to give it back.

But as long as I live in this body, as long as I feel, think and act, it will be MY body! I am responsible for that and no one else. MY BODY, which I treat in the way I think is right.

I do not wish to return to the old normal. I wish for a new better normal. With free and self-determined people, who are responsible for themselves. I believe many of us are here together with the same wish.

This gives me hope and I thank you.
