*This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized, -**Dr. Mike Yeadon***

*In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky's book is a rock upon which to sustain our fight. -**Dr. Emanuel Garcia***

*Professor Chossudovsky exposes the truth that "there is no causal relationship between the virus and economic variables." In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. -**David Skripac***

"It's a great book that I want people all over Japan to read. When I read this book, the various events explained in chronological order all fall into place and context, and they came close with a sense of reality. It's terrifying. My heart became pounding and painful as I read on. We must carefully determine the reverse side of the goodwill of the people who organized the COVID-19 pandemic. What can we do as a grassroots person? It's a tough question.
