Statement from **Antonio Porto**, Secretary-General of the Italian Police Union:

"Here we have young colleagues, 29, 34, 40 years old But people who were well. In the last month, from December 15th until today, **I became aware of seven police officers who died suddenly. In the last year, we are almost at 50. If not more.**"

Statement from **Aldo Di Giacomo**, Secretary-General of the Penitentiary Police Union:

"In the last 13 months, we had 41 penitentiary police officers who died of sudden deaths. **With a 200% increase compared to previous years.** But these data on these sudden deaths worry us, and not a little."

As explained by Antonio Porto, to join the police, specific and rigorous medical exams must be passed. Therefore, the presence of sudden deaths among the police is even more alarming and requires investigations. To join the police, you must have robust health and physical constitution. It is a basic requirement to enter the police force. So, if someone joins, it means they are healthy and should not die after two years. We have our dear Rafaela De Luca, who entered and died after three years of service. So, what caused this death?

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”

Reviews

This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon

In a world where humanity in which we find ourselves, in this singular, irregular and unpredictable crisis, liberty and the goodness of people, Chossudovsky’s book is a rock upon which to sustain our fight. —Dr. Emanuel Garcia

In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test - which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists.

—Peter Koenig

Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. —David Skripac

A reading of Chossudovsky’s book provides a comprehensive lesson in how there is a global

coup d'état under way called "The Great Reset" that if not resisted and defeated by freedom loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it's too late. You will not find so much valuable information and analysis in one place. -Edward Curtin
