Claire Edwards was speaking at a seminar in Oslo, Norway, on Saturday 26 October 2019.

Elon Musk has now applied to the Federal Communications Commission for permission to launch a further 30,000 satellites into Earth orbit, bringing the current total to 53,000 (October 2019). With the issues of space debris and weaponization being the two major issues of concern at the UN year after year, this is a mad enterprise, especially when NATO intends to declare space a domain of warfare in December 2019.

We stand at the brink of extinction if we do not stop the madness.

Claire Edwards, BA Hons, MA, worked for the United Nations as Editor and Trainer in Intercultural Writing from 1999 to 2017. Claire [warned the Secretary-General](#) about the dangers of 5G during a meeting with UN staff in May 2018, calling for a halt to its rollout at UN duty stations. She part-authored, designed, administered the 30 language versions, and edited the entirety of the International Appeal to Stop 5G on Earth and in Space (www.5gspaceappeal.org) and vigorously campaigned to promote it throughout 2019. In January 2020, she severed connection with the Appeal when its administrator, Arthur Firstenberg, joined forces with a third-party group, stop5ginternational, which brought itself into disrepute at its foundation by associating with the Club of Rome/Club of Budapest eugenicist movement. She is a frequent contributor to Global Research.
