"If parents were aware of these kinds of side-effects on children following COVID-19 vaccination they would probably think twice about proceeding with vaccinating their child with these mRNA products which clearly affect the brain.

Pharmaceutical products with this type of safety profile cannot be put on the childhood vaccination schedule, or be mandated in any form. That is a crime.

The health authorities, doctors and politicians are all fully aware of these harms that are being inflicted on children. They just don't care." (Dr. William Makis)
