

VIDEO: New Independent 9/11 Investigation

Architects and Engineers for 911 Truth Press Conference Ignored by World Media

On Feb. 19, 2010, Architects and Engineers for 911 Truth held a [press conference](#) at the Mariner's Club & Hotel in San Francisco, CA, USA, announced the milestone of having achieved in excess of 1,000 signatures from architects and engineers from around the world, demanding a new, truly independent investigation of the facts regarding the events of Sept. 11, 2001, saying that the conclusions drawn by the 911 Commission reek of cover-up, are not at all supported by the facts.

The 80-minute press conference included presentations by

- **Richard Gage**, founder of AE911Truth, who summarized how the facts support demolition being the cause of the World Trade Center buildings 1,2 and 7, not fire;
- **David Ray Griffin**, author of "The Mysterious Collapse of WTC 7", talking about the questionable science of NIST, concluding that they lied and are party to the cover-up;
- **Steven E. Jones**, professor Emeritus from BYU, who talked about evidence found in the WTC dust that can only be explained by intentional demolition; and
- **Eric Lawyer**, founder of Firefighters for 911 Truth, who pointed out the many ways in which long-established protocols for handling crime scenes involving fire and building collapse were egregiously violated, consistent with a cover-up.

As a sad commentary on the press corps, not one news agency in the world so far has done any coverage on the Feb. 19 event that was simultaneously broadcast at press conferences being hosted concurrently in cities throughout the US including San Francisco, Los Angeles, Las Vegas, Seattle, Portland, Chicago, Austin, Dallas, Madison, Dover, NH, Tulsa, Tucson, Boston, Alexandria, VA (DC), Tampa, Temple Terrace, FL, Denver, Newark; and internationally in Ontario, Vancouver, Brussels, Denmark, Sydney, and Wellington, NZ.

As of Feb. 25, 10:30 am Mountain, nearly a week after the event, a Google News search for ["911 truth" "san francisco"](#) came up null. I did find a [jeering blog post](#) from someone who attended to mock the event, ignoring the facts being presented.

The silence, no doubt, had a lot to do with the breaking news on the same day that Andrew

Stack III flew a plane into the Echelon 1 building in Austin. But zero coverage? Given that Stack may have been a mind control victim used as a stooge to paint patriots as whack jobs, the fact that no one in the world covered the AE911 press conference goes to show just how potent the ridicule element is as a deterrent.

Given how obvious the facts are, and how monumental an event 911 was, I'm astonished at the brazen silence of the press in this case. This story I'm writing now, to post in the Examiner, may be the first coverage this event gets in even the alternative press also picked up by Google News indexing. And I'm having to veer off topic some in order to cover this.

The reason this is relevant to free energy technology is that the faction that is involved in the 911 execution and cover-up is part of a [wider conspiracy](#) for whom the emergence of these [game-changing free energy technologies](#) and the liberation they would provide would spell disaster to the cabal's agenda to establish a world Orwellian police state. Likewise, you can see why helping such technologies emerge becomes a heroic endeavor of epic proportions.

In addition to the videos from this press conference, there have been some excellent **911 Truth** videos produced recently that deserve your attention, whether you are already convinced that there is a conspiracy and cover-up from elements within the U.S. government, or you have yet to come to that conclusion. Such a criminal cover-up is blatantly obvious if you will consider the evidence that is presented in these videos, which provide some new evidence as well as present the old evidence in power ways.

Visit our [PESWiki](#) feature page to view my collection of some of these new 911 videos. My favorites from the AE911 press conference were the presentations by Eric Lawyer ([video 6/6](#)), and my friend, Steven E. Jones ([videos 4b/6 and 5/6](#)). This was the first I have heard a delineation of the standard investigation protocol used in the case of fires or collapsed buildings, which was completely ignored in the case of the WTC towers. That alone is an act of complicity in the crime and is a classic signature of cover-up.

Watching and propagating these videos is a revolutionary act. Be part of the resistance to tyranny. It's part of the milieu of defending and advancing freedom.

Also, be sure to subscribe to the official [ae911truth](#) YouTube channel, which posts around 2-4 such videos per week, all of which are excellent.

Maybe Google News has some kind of embargo on stories about this, because a search in Google news comes up null, but outside of Google news some coverage shows up that should pull up in a Google News search.

[Explosive News](#) - How did 200,000 tons of steel disintegrate and drop in 11 seconds? A thousand architects and engineers want to know, and are calling on Congress to order a new investigation into the destruction of the Twin Towers and Building 7 at the World Trade Center.
