GR Editor's Note

This is a "potential" slap in the face to the CDC, the US media and Big Pharma which is developing a multibillion dollar vaccination program.

Big Pharma's intent -with the support of the Western media- is to suppress relevant information on the features of the virus and how it can be cured. Treatment is currently the object (in several countries including the US) of debate by virologists and physicians. Dr. Zelenko's treatment on the use of hydroxychloroquine is in this regard of utmost importance.

Note to our readers. Do not take medicine without a formal prescription from your physician or family doctor.

Over the weekend Dr. Vladimir Zelenko from New York state announced he has found a treatment against the coronavirus with a 100% success rate on 350 patients.

Dr. Zelenko joined Sean Hannity earlier today on his radio program to discuss the results from his test.

The New York doctor also posted a video explaining his success with hydroxychloroquine and Zinc. His treatment resulted in the shortness of breath issue being resolved in 4 to 6 hours. Dr. Zelenko in his study had zero deaths, zero hospitalizations and zero intubations!

Later on Monday evening Sean Hannity invited two more medical experts on to discuss Dr. Zelenko's coronavirus results.

The two doctors were cautiously optimistic.

We updated this post to note Dr. Zelenko used Zinc supplement and not Z-Paks in his treatment.
