Guest is Alexandra (Sasha) Latypova, former pharmaceutical industry executive with 25 years of experience in pharmaceutical research and development. She started a number of successful companies — primarily focused on creating and reviewing clinical trials. She was born in Ukraine and moved to the United States in the 1990s.

This session is about all safeguards and regulations that the public has relied on for years and assumed to be in place for pharmaceutical products that have been effectively removed for mRNA-based vaccines. She found the reason how this is even possible: she obtained Department of Defense contracts for COVID vaccines, therapeutics, diagnostics, and all related products.

Pfizer and Moderna violated all rules because the products they are making are, according to the contracts, manufactured under defense prototype agreements, with no accountability and no real requirements for safety or efficacy. The DOD contracts remove all liability as long as manufacturers and everyone involved “follow orders” under PREP Act.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”
