[This interview was conducted in 2022 by Pangea Grandangolo.]

In this special Pangea's Grandangolo episode, Jean Marazzani Visconti interviews Prof. Michel Chossudovsky, award-winning, author of 11 books, Professor of Economics (emeritus) at the University of Ottawa, and Founder, and Director of the Centre for Research on Globalization (CRG).

Prof. Chossudovsky discusses current geopolitical events, including the war in Ukraine and the possibility of nuclear escalation.

He remarks that the US Military-Industrial Complex and nuclear weapons manufacturers, through a progressive whitewashing operation started in 2003, have gradually convinced government decision-makers to soften the thresholds for using nuclear bombs, even in conventional wars, claiming their limited danger to the population.

He also talks about the privatization of war and governments and how this impacts current events.

If a nuclear war breaks out today, the devastation caused by modern nuclear weapons would make Trinity's power look small by comparison. Reviews

“This book is a ‘must’ resource – a richly documented and systematic diagnosis of the supremely pathological geo-strategic planning of US wars since ‘9-11’ against non-nuclear countries to seize their oil fields and resources under cover of ‘freedom and democracy’.”

-John McMurtry, Professor of Philosophy, Guelph University

“In a world where engineered, pre-emptive, or more fashionably “humanitarian” wars of aggression have become the norm, this challenging book may be our final wake-up call.”

-Denis Halliday, Former Assistant Secretary General of the United Nations

Michel Chossudovsky exposes the insanity of our privatized war machine. Iran is being targeted with nuclear weapons as part of a war agenda built on distortions and lies for the purpose of private profit. The real aims are oil, financial hegemony and global control. The price could be nuclear holocaust. When weapons become the hottest export of the world’s only superpower, and diplomats work as salesmen for the defense industry, the whole world is recklessly endangered. If we must have a military, it belongs entirely in the public sector. No one should profit from mass death and destruction.

-Ellen Brown, author of ‘Web of Debt’ and president of the Public Banking Institute
