Incisive Analysis of renowned author Colonel Douglas Macgregor

“I think it is clear that the American people are largely divorced from the reality of this [Ukrainian] conflict, as they have been for the last 30 years.

War has always been something that happened far away on somebody else’s soil. The difference this time is that Washington has decided, along with help and assistance particularly from its allies and London and the global financial community run out of New York City, to wage war on the Russian state with the goal of not simply of regime change but destroying the state particularly dismembering it.” – Col. Douglas Macgregor
