Rare Footage - Flight 93 - September 11 2001

"Ultra-rare news footage from the crash site of United Flight 93 which has never been seen again since 9/11"

Do you see any airplane?

Excerpts

"The debris is spread over a 3 or 4 mile area,

"Pictures tell the story, pictures really tell the story, the most horrifying aspect of this crash is how little debris is visible..."

"There is a large crater in the ground and tiny tiny bits of debris, the investigators have found nothing larger than a phone book."

"There seems there is nothing there except a hole in the ground"

"Any large pieces of debris? No. There was nothing , nothing that you could have distinguished that a plane had crashed there. You could not see anything. No smoke, no fire.... You could see dirt ash and people walking around."
