Numerous scientific studies reveal that the face mask is detrimental to a person's health.

According to **Dr. Russell Blaylock**: by wearing a face mask, "the exhaled viruses will not be able to escape and will concentrate in the nasal passages, enter the olfactory nerves and travel into the brain.

*In a French supermarket, **an employee was violently arrested, mistreated, forcibly taken away and taken into custody by a patrol of gendarmes while he had lowered his mask (mandatory now in France in closed public places) to "take a breath" of fresh air.***

The face mask has become the symbol of the terror that those who have usurped power (including our governments) are inflicting on defenseless populations.

It is no longer a question of health or reason, but only of obedience.

It should be understood that the "pandemic" of "COVID-19" is a global swindle, imposed by force by a powerful financial plutocracy, the vilest thing in mankind, with the complicity of corrupt governments and media, and that the masks worn permanently are a source of infection, they prevent us from breathing, damage our health and humiliate us.

By imposing "face masks", "protective visors", protective suits, "social distancing", it is society which they want to destroy, to leave the individual totally naked, like a laboratory guinea pig, facing the destructive power, invisible "virus".

The Video in French shows how a supermarket employee is violently arrested. What were dealing is the criminalization of the State, the evolution towards a police state.

Police control in the Carrefour Contact store in Breil-sur-Roya...

An employee on duty since 6am has a "badly placed" mask right under his nose... Result?

The soldiers go into action. Unbelievable! Look, share, comment ...
