

Video: The Lockdown: Economic Hell on Earth is Coming, “They Are Killing Us”

The Markets are Rigged

By [Gerald Celente](#)

Global Research, October 24, 2020

Gerald Celente, the popular publisher of *The Trends Journal*, is sounding the alarm on what he sees as a coming economic catastrophe.

“They are killing us,” says Celente referring to the current lockdown of many businesses.

In the interview with Stansberry Research anchor **Daniela Cambone**, Celente discusses what he is doing to protect his assets.

He also details how he is preparing for what he considers the worst economic disaster since the Great Depression...

..

In a 2014 interview (below), Celente confirmed that “it is not a conspiracy theory. The markets are rigged.”

See 2014 interview below: 2. 48”

And they were rigged in February 2020 leading to massive appropriation of money wealth by a handful of billionaires.

We fully concur with Gerald Celente’s analysis of the Lokckdown.

They, the politicians are destroying people’s lives, Worldwide. The markets are rigged. The media is rigged.

“On March 11, the WHO officially declared a Worldwide pandemic at a time when there were **18,000 confirmed cases and 4291 deaths** out of a total World population outside China of the order of **6.4 billion people**. What do these “statistics” tell you? Most of these confirmed “positive cases” were estimated using the RT-PCR test which does not detect or identify the virus.

Immediately following the March 11 WHO announcement the fear campaign went into high gear. **Confinement instructions were transmitted to 193 member states of the United Nations. The outright closing down of national economies was upheld as a means to resolving a public health crisis.**

Politicians are the instruments of powerful financial interests. Was this far-reaching decision justified as a means to combating the Virus? Did the “numbers” (of confirmed cases) justify a Worldwide pandemic?

Unprecedented in history, applied almost simultaneously in a large number of countries, entire sectors of the World economy were destabilized. Small and medium sized enterprises were driven into bankruptcy. Unemployment and poverty are rampant.

In some countries famines have erupted. The social impacts of these measures are devastating.

The devastating health impacts (mortality, morbidity) of these measures including the destabilization of the system of national health care (in numerous countries) far surpass those attributed to Covid-19.
