Reviews

"When Western leaders abandoned reason and embraced the ideology of force several years ago, Naomi Wolf was one of few who understood instantly what was happening. She has been writing about it all the time, no matter what. The result has been a collection of essays by some of us who've followed it, and for the first time is collected here in one place. Read Facing the Beast to understand what bravery looks like."—Tucker Carlson

"In the crisis of our lives and of everything we call civilization, Naomi Wolf has been a prescient observer, a keen analyst, and brave fighter for truth and freedom. Everything in her life and career prepared her for this moment. We all owe her a debt of gratitude for what she has done and continues to do for the great cause. Like her last book, Facing the Beast stands as a testament to truth in times gone mad."—Jeffrey Tucker, president, Brownstone Institute

"The world is being constructed to divide us. Naomi Wolf has seen through the lies and has shown us the way. On her journey, described in Facing the Beast, she unequivocally came to a principle—that all of humanity is connected. Dr. Wolf fights for our God-given rights and freedoms. I am honored to call her friend."—Edward Dowd, author of Cause Unknown
