### Reviews

“This book is a ‘must’ resource – a richly documented and systematic diagnosis of the supremely pathological geo-strategic planning of US wars since ‘9-11’ against non-nuclear countries to seize their oil fields and resources under cover of ‘freedom and democracy’.”

**-John McMurtry**, Professor of Philosophy, Guelph University

“In a world where engineered, pre-emptive, or more fashionably “humanitarian” wars of aggression have become the norm, this challenging book may be our final wake-up call.”

**-Dennis Halliday**, former Assistant Secretary General of the United Nations

“This book is heart rending, scary and absolutely accurate.”

**-Helen Caldicott**, former Secretary General of the United Nations  
Michel Chossudovsky exposes the continuity of our privatized war machine. Iran is being targeted with nuclear weapons as part of a war agenda built on distortions and lies for the purpose of private profit. The goals are oil, financial hegemony and global control. The price could be nuclear holocaust. Weapons become the hottest export of the world’s only superpower, and diplomats work as salesmen for the defense industry, the whole world is recklessly endangered. If we must have a military, it belongs entirely in the public sector. No one should profit from mass death and destruction.

**-Ellen Brown**, author of ‘Web of Debt’ and president of the Public Banking Institute
