In-depth Report: [THE H1N1 SWINE FLU PANDEMIC](#)

The United States of America is devolving into what might be described as “medical fascism” and Massachusetts is leading the way with the passage of a new bill, the “Pandemic Response Bill” 2028, reportedly just passed by the MA state Senate and now awaiting approval in the House.

This bill, if adopted, would suspend the Constitutional rights of Massachusetts citizens and forces anyone “suspected” of being infected to submit to interrogations, “decontaminations” and vaccines.

It’s also sets fines up to \$1,000 per day for anyone who refuses to submit to quarantines, vaccinations, decontamination efforts or to follow any other verbal order by virtually any state-licensed law enforcement or medical personnel. You can consult the text of the proposed legislation here:

<http://www.mass.gov/legis/bills/sen...>

Below are relevant excerpts of the bill:

## **(Violation of 4th Amendment: Illegal search and seizure)**

*During either type of declared emergency, a local public health authority... may exercise authority... to require the owner or occupier of premises to permit entry into and investigation of the premises; to close, direct, and compel the evacuation of, or to decontaminate or cause to be decontaminated any building or facility; to destroy any material; to restrict or prohibit assemblages of persons;*

## **(Violation of 14th Amendment; illegal arrest without a warrant)**

*...an officer authorized to serve criminal process may arrest without a warrant any person whom the officer has probable cause to believe has violated an order given to effectuate the purposes of this subsection and shall use reasonable diligence to enforce such order.  
[Gunpoint]*

## **(Government price controls)**

*The attorney general, in consultation with the office of consumer affairs and business regulation, and upon the declaration by the governor that a supply emergency exists, shall take appropriate action to ensure that no person shall sell a product or service that is at a price that unreasonably exceeds the price charged before the emergency.*

### **“Involuntary Transportation” (also known as kidnapping)**

*Law enforcement authorities, upon order of the commissioner or his agent or at the request of a local public health authority pursuant to such order, shall assist emergency medical technicians or other appropriate medical personnel in the involuntary transportation of such person to the tuberculosis treatment center.*

### **\$1,000 / day in fines**

*Any person who knowingly violates an order, as to which noncompliance poses a serious danger to public health as determined by the commissioner or the local public health authority, shall be punished by imprisonment for not more than 30 days or a fine of not more than one thousand dollars per day that the violation continues, or both.*

### **Forced vaccinations**

*Furthermore, when the commissioner or a local public health authority within its jurisdiction determines that either or both of the following measures are necessary to prevent a serious danger to the public health the commissioner or local public health authority may exercise the following authority: (1) to vaccinate or provide precautionary prophylaxis to individuals as protection against communicable disease...*

### **Forced quarantine for those who refuse (illegal imprisonment without charge)**

*An individual who is unable or unwilling to submit to vaccination or treatment shall not be required to submit to such procedures but may be isolated or quarantined pursuant to section 96 of chapter 111 if his or her refusal poses a serious danger to public health or results in uncertainty whether he or she has been exposed to or is infected with a disease or condition that poses a serious danger to public health, as determined by the commissioner, or a local public health authority operating within its jurisdiction.*
