During the previous years, and more specifically the last few months, the intensity of a putrid smell of war has increased to the point where apocalypse could be just around the corner. More and more talks of war, a fear-mongering discourse, the projection of a hot (nuclear) WWII - hitting Central Europe the third time in just over hundred years, is dominating the mainstream and even non-mainstream media.

It could be true, of course.

Hungary's Prime Minister, Viktor Orban, envisions a West entangled in Ukraine close to no return. This would mean a direct clash with Russia. Mr. Orban is especially referring to French President Macron's promise of delivering to Ukraine Mirage fighter jets (no numbers mentioned) and his repeated threats of sending French / NATO troops to fight in and for Ukraine and against Russia.

NATO soldiers in Ukraine is a fully understandable no-no for President Putin, as he repeated on many occasions. It had been part of the Minsk Agreements (2014 and 2015), as signed by all parties, but completely ignored. According to Madame Merkel, then-German Chancellor, Minsk was never meant to be serious, but rather to "buy time" for the west to bolster Ukraine for war with Russia. So, western lies, tricks and cheats are gradually seeping out.

NATO troops are already in Ukraine, just not officially, but admitted and referred to on several occasions by the Polish Foreign Minister.

Hungary's Head of State also says that NATO requires its members to supply Ukraine with at least 45 billion dollars-worth of weaponry – which he is against. Hungary will not participate in any NATO (or otherwise) direct intervention in Ukraine against Russia. See [this](#).

As a sideline-advice, Mr. Orban may surround himself with bodyguards, as anti-Nato-Ukraine politicians have been cautioned, if not warned, by unidentified sources – for example politicians in Georgia – about the fate of Slovakia's PM, Robert Fico – who recently just survived an assassination attempt.

Mr. Fico was openly against arming and funding Ukraine in the war against Russia. He is also a fierce opponent of the WHO "Pandemic Treaty", which is "disabled" for now. The death cult knows no limits.

The other war – in the Middle East – the US Biden-Blinken Administration is doing whatever they can to drive the Zionist Israeli horrendously brutal killing machine to extremes in Gaza – and, less reported on, in all of Palestine, extending into Lebanon and Jordan and soon deeper into the Middle East for the Zionists holy goal of a Greater Israel. See [this](#) and [this](#) and [this](#).

On 8 June, Washington supported the IDF (better called ZDF – "Z" for Zionist) to "rescue 4 Israeli captives" in Gaza. That offensive ended up killing at least 200 Palestinians, with children being the main target, maiming them, blowing them up, leaving them destroyed, either death or horrendously suffering until death relieves them from suffering.

A US official told Axios (American news website), a US "cell" was stationed in Israel since 7 October 2023, supporting the IDF with military and intelligence data, or as the NYT calls it "intelligence and other logistical support". All the while, there are, of course, no US boots on the ground.

Does anybody still doubt that the October 7, 2023 " Hamas attack " was planned well in advance by Israel's Mossad, along with the CIA and MI6?

It looks obvious that these two active and hot wars – Ukraine and Gaza – are connected, as are many others with less news coverage. Both are following the interests of the same Zionist-led worldwide financial apparatus. Killing by wars is among the western system's biggest money-making affairs.

Plus, it serves the same cabal's key priority of depopulating the planet. Therefore, wars may rather proliferate than abate, as we see on a daily basis. Atrocities and rules-based assassination of objectors to the orders, are reaching extremes – with a largely desensitized public just looking on "*as long as it doesn't touch me...*"

This is the world we are living in.

Or is it?

Simultaneously, there is a fresh breeze of hope and peace cleansing the stench of war. Things are shifting – into a new direction. All over the world. This move is often hard to see – because we are living in a western propaganda and lie-media cage. It ignores the ongoing contest between evil darkness and the light of liberation and Peace.

For example, this past weekend (8 / 9 June 2024), an *Anti-Globalist rage swept Europe*. Elections took place in many countries in Europe, notable for the European Parliament – where the so-called left, the corrupted “socialists” (no longer deserving their noble name) and greens, the Master Globalists (as in the *Green Deal*, the largest sham in recent party history) were out-voted by a landslide, in favor of conservative politicians and parties representing the will of the people, national sovereignty, personal independence – screaming a loud NO to globalism.

A drastic shift to the so-called right – a better term would be towards “people’s and national sovereignty” in the EU Parliament, took place.

Under the circumstances, it is far from sure that Madame Ursula Von der Leyen, unelected European Commission (EC) President for the last five years and loaded with corruption lawsuits, will be reappointed for a second five-year term in August 2024.

The Belgian Prime Minister resigned. In France, the people revolted against Macron, chanting RESIGN!

Consequently, Macron dissolved Parliament and called for snap elections on June 30 and July 7, 2024. For details on how French dissolution of the National Assembly (Parliament) and snap elections work, see [this from Le Monde](#).

President Macron’s opponent, National Rally’s Marine Le Pen, and her young ally, Jordan Bardella, were jubilant after Sunday’s victory. They are projected winning the upcoming elections by a large majority.

Is this the beginning of the downfall of Globalist Europe? If so, where will Washington go? A people’s revolt in the US is also just around the corner. Many barbarian acts – like the literal promotion and funding with hundreds of millions of dollars of “illegal immigrants” by the

Biden / Blinken Administration, are keeping the American public on edge.

So far about US\$120 billion, and more promised, in US tax-payers money transferred to ultra-corrupt Ukraine in the form of cash or weaponry, is further polarizing Americans, especially those aware of the *real* level of recession, poverty and unemployment ravaging the United States' economy since the covid sham.

Many speak about a potential civil war, going as far as a breaking off by Texas into a new independence (Texas was a breakaway state from March 2, 1836 to February 19, 1846). See also the independent 2024 movie, "Civil War". Films are often used by the Cult-Cabal to predict what may be planned and coming.

Potential scenarios are many. And who knows how long the struggle between the forces of darkness and those of light will last, when finally light will outshine darkness?

Does it mean that the western systems of usurpation – thousand years of colonizing the Global South – may collapse on both sides of the Atlantic?

Speculating positively, Europe may rebuild itself along the lines of the ancient giant Eurasian Continent that 2100 years ago was united by the original Silk Road, already then initiated by China.

It would be a logical unification and cooperation in Peace and harmony with Russia, China, and the Global South, today represented by the expanded BRICS and the Shanghai Cooperation Organization (SCO).

We are not there yet.

Kiev is still fighting for more and more western support, in arms, in money, in training of Ukrainian troops to fight against Russia. They will, on average, according to expert Scott Ritter, last about a week or less before they are killed.

Russia could indeed bring a halt to this bloodshed by decapitating Kiev in a matter of 72 hours or less. If it has not happened yet, it is because President Putin does not want to risk a hot – God forbid – nuclear WWIII, destroying Europe and possibly much of Moscow too.

Figuratively speaking, it is a few seconds to noon before a collapse may be triggered by an act of cowardice, by the western illusion of supremacy. Yet, Russia is today and has always been ready to negotiate for a fair arrangement that protects the Russian population in the Donbas and keeps Ukraine out of NATO – as a neutral state.

Why does it not happen?

Why does the West not take advantage of the so-called Peace Conference sponsored by Switzerland on 15 / 16 June on the Swiss luxury resort Burgenstock, a frequent Bilderberger venue, to which it is expected that more than 160 delegations, nations, organizations, NGOs and individuals will attend – but NOT Russia? Naturally, names of expected attendees are secret.

Why is it that they lie about not inviting Russia, saying, because Russia would not want to attend, when the exact contrary is the case? The truth is, Switzerland was falling for Zelenskyy's wish to hold a Peace Conference without Russia. Can anybody imagine this billion-dollar effort for zilch? For sheer anti-Russia propaganda? And for bending to western arrogance?

Such a sinister plan can only be a loser's plan.

Whatever it is, subtle events of reconciliation are occurring throughout the world, the breeze of fresh air is brushing away the stench of war, of ever more obvious political incompetence, of the endless war propaganda, and, instead, they are announcing a new, non-globalist multi-polar world working together for shared benefits and a common future.
