John Kiriakou is an American patriot who informed us of the criminal behavior of illegal and immoral US "cloak and dagger" operations that were bringing dishonor to our country. His reward was to be called a "traitor" by the idiot conservative Republicans and sentenced to prison by the corrupt US government.

Manning revealed US war crimes and after years of illegal pre-trial prison abuse was sentenced to 35 years in prison for keeping the vow to the US Constitution. Some of the idiot conservative Republicans thought the sentence was too light.

Tom Drake was ruined, and he kept his complaints about NSA illegality within the chain of command.

Julian Assange is confined by the US and UK governments in violation of international law to the Ecuadoran Embassy in London for doing his job and publishing leaked documents revealing the mendacity, immorality, and illegality of Washington's policies.

Edward Snowden is protected by Russia against Washington's retribution for revealing that Washington's illegal and unconstitutional spying is universal and includes the personal communications of all of the leaders of Washington's own vassal states.

The American people accept the persecution of truth-tellers, because they have been brainwashed into believing that patriotism means defense of the government no matter what. As truth is so unfavorable to Washington, Americans believe that it must not be revealed, and if revealed, covered up, and those who reveal truth must be punished.

A country with such a population as this is a police state, not a free country.

It is an irony of history that a government and a population that believes truth must be covered up at all cost parades around the world acting as if Washington is the history's agent for "bringing freedom and democracy to the world."
