"He who controls the weather controls the world" - Lyndon B. Johnson, 1962

Watch video below.

What we are seeing these days with hurricane "Ian" ravaging the Caribbean, the Florida coasts and inland, then all the way up to South Carolina - causing massive destruction of infrastructure, cropland, death of animals and people, as well as cancellations of all flights from NYC to Florida, this is a state of war.

It is also called geoengineering.

In the last couple of years it has become common place.

"Chemtrails", the by now common term for spraying the higher atmosphere by airplanes literally with tons of tens of thousands of different chemical particles, has become a technology covered by hundreds if not thousands of patents. Not just US patents. Patents from countries around the world.

Did you know that Spain along with over 50 countries are currently carrying out "*activities to artificially change the weather*". So said recently the Spanish weather agency AEMET and speaks of "chemical contrails" or "chemtrails". See [this](#).

To get a full picture of what geoengineering is all about, its history - back to at least 1947, probably longer - its scientific background, secrecy - and power - war power, literally to be used for weather warfare, you ought to watch "The Dimming" (linked below).

Geoengineering may be similar to *Project Manhattan* (The Manhattan Project was the code name for the American-led effort to develop a functional atomic weapon during World War II), see this **"The Dimming"** - Full Length Climate Engineering Documentary

(<https://www.GeoengineeringWatch.org>, 10 March 2021)

According to Florida's meteorological stations, *Ian* is the worst hurricane hitting Florida in decades, possibly ever.

Ian's devastation – the extent of which cannot yet be measured – is leaving behind damage, requiring possibly years of clean-up and reconstruction work.

See this 3-min *tell-it-all* video.

Like the hot and dry summer – in Europe and North America almost two months without a drop of rain and record temps – killing harvests, animals, food stocks, even people, those vulnerable to heat and the poor. The poor are always in the first line to be hit and hurt by misery.

Of course, the scenario fits perfectly into the objectives of the Great Reset and of UN Agenda 2030. It fits the Big Picture – which we should never forget, when we look at single disaster events. All we have to do is connect the dots.

In a conference in Davos, Switzerland, at the end of August 2022, a meteorology professor of one of Europe's foremost technical universities, addressed the audience by saying, *"There is no need to tell you that our weather is engineered. Its obvious. But I will explain to you how it's done."*

Then he proceeded explaining the different processes, the thousands of different chemicals that are released into the atmosphere, what they do – and how they are patented – and how these poisonous particles, many containing heavy metals and toxic chemicals are ending up in water streams, lakes and groundwater. It is weaponizing the weather. The devastation of it may be almost as destructive as a nuclear bomb. Severe storms, droughts floods, colds – ice storms – and more can be applied anywhere in the world.

With the "Greens" massive and relentless propaganda it simply will be ascribed to "climate change". Scared and indoctrinated people – still a vast majority – will not question the climate change dictum. They nod and accept, and hope to be able to survive and rebuild. Those who lose loved ones, will blame it on man-made "climate change".

Yes, man-made it is. But it has nothing to do with the "excessive release of carbon dioxide", or CO₂. It is geoengineering weather into a deadly war-weapon. See [this](#).

In many places, or entire countries, water was rationed this summer 2022.

Wrongly so, because there were years in recent history, where the water tables were lower throughout Europe and North America, and no water rationing occurred.

Water rationing is an intimidating tactic. Everybody knows that water is essential for life. Rationing it spreads fear and incites submission to the authorities who decide over your access to water. It is part of fearmongering, subduing peoples' minds into a dependency on authority.

Authorities will allow you to use or not to use water and / or energy and / or food. You are told there are shortages. These shortages will be complemented by other shortages. They are causing panic and famine, particularly in the vulnerable segments of populations.

Nobody tells you that all these shortages – mostly blaming Russia for them, falsely of course – are made artificially – all with the purpose of controlling humanity – the playbook of the WEF’s Great Reset, aka UN Agenda 2030.

The combination of all, including the earlier poisonous mRNA multiple-vaxx-shots, weakening the human autoimmune system, may also cause massive deaths from famine, a multitude of diseases and sheer misery-related causes, including massively increasing, but not reported, suicides.

Again, nobody tells you – these are artificial shortage, wantonly man-made shortages with the purpose of creating harm, severe harm – and advancing the Reset’s eugenist agenda.

The point is, geoengineering is advanced to a level where Washington easily can say “by 2025 we own the weather”. See [this](#) and [this](#).

Owning the weather, for the Pentagon means, weaponizing the weather.

Possibly using it instead of – or in parallel with – nuclear weapons; targeted small radius nuclear blasts.

Only when a critical mass of people is aware of what is going on – and what this could mean for the future of mankind, can we, the people, counteract these diabolical control mechanisms of an obscure cult and its goal of a One World Order – total digitization, robotization and globalization of the surviving world population.

They will not achieve it.

Because we awakened humans will not allow it. Our spirit, dynamics and quantum physics, seeking out the light, our vibration with the light, will prevent the dark cult from succeeding.
