I have said this for a long time. The global elite hate you, they want to destroy your standard of living, and reduce you to a serf, a powerless and dispensable carbon emitter.

World Economic Forum hemorrhoid, Chrystia Freeland, thinks the middle class makes too much money. The WEF is as evil as you think. Freeland is safe behind a podium at the WEF. There are thousands of Swiss soldiers outside making sure outraged plebs don't storm the castle.

This "honorable" woman (government sociopaths are always honorable), a fixture of the state, is on her tenth careerist term as deputy prime minister of Canada and "serves" as the minister of finance.

As minister of finance, there is no doubt she understands what a "pay cut" will do to the middle class.

The Middle Class Is Getting a Smaller and Smaller Share

Freeland obviously considers the American middle class useless and non-productive (unlike the factory slaves in China). Sure, their grandparents built America and toiled in factories and offices. However, Freeland and the neoliberal cartel believe it is high time to dismantle America and starve out those left in the wake of offshoring and the financial swindles that have further enriched the billionaire caste, a massive transfer (theft) of wealth that is slowly destroying the middle class.

Klaus Schwab, a student of war criminal Henry Kissinger, is a mentor to power-hungry and narcissistic sociopaths. The WEF “Great Reset” is designed to turn the world into an impoverished social concentration camp, where destitute serfs “own nothing” and this, in true Orwellian fashion, will set them free.

It’s not mentioned that the Schwab control freak system will shut down any opposition to unelected WEF apparatchiks. If you rent everything—your home, car, food, computer, etc.—that rental “privilege” can be taken away.

I challenge people to investigate the WEF’s [Global Redesign Initiative](#). According to the [Transnational Institute](#) in the Netherlands, this “initiative” proposes

a transition away from intergovernmental decision-making towards a system of multi-stakeholder governance. In other words, by stealth, they are marginalising a recognised model where we vote in governments who then negotiate treaties which are then ratified by our elected representatives with a model where a self-selected group of ‘stakeholders’ make decisions on our behalf. (Emphasis added.)

In other words, large transnational corporate “stakeholders” will be deciding where you live, what you eat ([insects and weeds](#)), how you reproduce (or not reproduce; [children produce](#)

[carbon emissions](#)), and what you can “rent” from them, or not be allowed to rent if you complain about an unelected globalist “economic” cartel driving humanity into serfdom, worldwide poverty, and depopulation.

Chrystia Freeland is an enemy of humanity. She is a globalist misanthrope. In the above video, she revealed her utter contempt for the average man and woman. She is advocating harm, even death.

There is no other way to describe such a despicable misanthrope. No doubt her response would be entirely different if enraged serfs managed to overwhelm the Swiss military outside the luxury ski resort at Davos and rounded up the self-entitled WEF grandees and arranged a tribunal for economic crimes against humanity.

It won't happen anytime soon.

Americans, Canadians, and Europeans are far too passive, distracted, dumbed down, and willing to believe fictional narratives. If covid demonstrated anything, it is that indoctrinated people, fearful of death, will do whatever the government demands of them. It's a template that will be repeated.

Well, at least the French retain some spunk. Macron wants to neoliberalize France's pension system. This was the response to his proposal to negate a promise:

Huge protests all across France today against pension reform.

It really is too bad a million or more people are not marching up Landwasserstrasse to Davos to demonstrate opposition to the WEF cartel and its misanthropic global agenda.
