Let's make no mistake, we are already in WWII. A more noble term is “The Great Reset” – the World Economic Forum's (WEF) eloquent description of a devastated worldwide economy, countless bankruptcies and unemployment, abject misery, famine, death by starvation, disease and suicide. Hundreds of millions of people have already been affected by this “collateral” damage of the “covid-19” fear-propaganda bio-war, with a death-toll maybe already in the tens of millions, but which in reality cannot even be assessed at this time.

And this only one year into this criminal madness, a diabolical elite of multi-multi billionaires has pushed upon us, We the People. We are only in the first year of the war which by the Reset's plan is to last the entire decade 2020-2030. The agenda is supposed to be completed by 2030 – it's also called UN Agenda 2030.

See [this](#).

The WEF is, in fact, nothing more than an NGO, registered in a lush suburb of Geneva, Switzerland. Its members are, however, a collection of dirty-rich people: High-ranking politicians, heads of corporations, banking gnomes, artists and Hollywood personalities – none of them are people's elected officials with a mandate to rule the world.

Yet, they are effectively ruling the world, by coopting, coercing, or threatening the entire UN system and its 193 member countries into their obedience. Because they think they have all the money in the world, and they can. Mind you, money acquired in a fraudulent system designed by them. – But more importantly, because We, the People, let them.

The Great Reset has three major goals, all of equal importance

(i) massive depopulation,

(ii) shifting all assets from the bottom and the middle to the top; following the motto for the masses, at the end “*You will own nothing and be happy*”. That is **Klaus Schwab's** conclusion for the completion of The Great Reset; and

(iii) a complete digitized control over everything – money, mind, personal records and behaviors – a combination of Aldous Huxley’s “Brave New World”, and George Orwell’s “1984”. See [this](#).

As we can see, the WEF is involved at every level in the Plandemic and its consequences, especially the consequences that favor the Great Reset. As Klaus Schwab in the Great Reset so revealingly says, the pandemic opens a “small window of opportunity” during which these *consequences* (meaning the reshaping of the world) have to be realized. Everything has to work like clockwork.

So far, it seems to be on track. Though, as more people are waking up and scientists consciousness make them leaving their straight-jacketed matrix-jobs, resistance is growing exponentially.

The NGO, trillion-dollar members-powerhouse, **WEF, is outranking the world’s peoples designed and implemented UN system by far.** Recently the WEF, now in association with *Carnegie Endowment for International Peace*, was warning of a cyber-attack on the western monetary system. To emphasize their point, they said, it is **“Not a Question of If but When.”**

According to the *Last American Vagabond (LAV)*, a “report published last year by the WEF-Carnegie Cyber Policy Initiative, calls for the merging of Wall Street banks, their regulators and intelligence agencies as necessary to confront an allegedly imminent cyber-attack that will collapse the existing financial system.”

[The LAV article goes on saying](#)

“In 2019, the same year as Event 201 took place (Event 201 – 18 October 2019, in NYC, simulating the current SARS-CoV-2 plandemic and destruction of the world economy), the Endowment launched its Cyber Policy Initiative with the goal of producing an **“International Strategy for Cybersecurity and the Global Financial System 2021-2024.”** That strategy was released just months ago, in November 2020 and, according to the Endowment, was authored by “leading experts in governments, central banks, industry and the technical community” in order to provide a “longer-term international cybersecurity strategy”, specifically for the financial system.”

The Cyber Policy Initiative emanating from the joint venture’s WEF- Carnegie Endowment report of November 2020, is contained in a paper titled

[“International Strategy to Better Protect the Financial System.”](#)

It begins by noting that the global financial system, like many other systems, are “going through unprecedented digital transformation, which is being accelerated by the coronavirus pandemic.” It concludes with the warning that:

“Malicious actors are taking advantage of this digital transformation and pose a growing threat to the global financial system, financial stability, and confidence in the integrity of the financial system. Malign actors are using cyber capabilities to steal from, disrupt, or otherwise threaten financial institutions, investors and the public. These actors include not only increasingly daring criminals, but also states and state-sponsored attackers.”

A fully digitized monetary system has been on the WEF’s and IMF’s agenda for years. They cannot wait to implement it. So, if indeed, a cyber-attack on the western monetary system actually will take place, there is no question, who has planned and implemented it.

The drive for total digitization of everything, but foremost the (western) world’s monetary system, is an integral part of The Great Reset. It is supported, of course, by the banking and finance sector, including western central banks. Its implementation is to be accelerated by the covid-fraud, but encounters fierce resistance in many countries, especially in the Global South but also in the western industrialized countries, where intellectual groups realize what this means for the resources and assets worked for and owned by the people – it will be easily ‘expropriated’ so to speak, for example, for disobedience, as the control will be fully with the banks.

And this leads to the conclusion of the nefarious *Great Reset* – “*You will own nothing and be happy*”.

Luckily, the East, led by China and Russia, has gradually withdrawn from the western monetary system and are largely independent, monetary-sovereign countries. Therefore the western digitization drive does not apply to the East which is further enhanced by the China-Russia led Shanghai Cooperation Organization – SCO – accounting for about half the world’s population and a third of the world’s economic output – GDP.

See here for the [full LAV article](#).

If Klaus Schwab and the WEF’s “Illuminati” would have their way, by 2030 the grand flock of humans will be transformed into “transhumans” – a kind of semi-robots that responds to AI signals controlled by *The Great Reset’s* masterminds (sic), which by then will have become the leaders of a tyranny, called the New or One World Order – OWO.

We, the People, would then have become the new AI-directed serfs. Or, as per Aldous Huxley’s *Brave New World*, the “epsilon people”.

Let that not happen.

Let’s unite and resist with all our powers.

We are still 7.8 billion people against a few pathological soulless multi-billionaires.
