- Introduced and referred to House Judiciary Committee on January 30, 2020

[ICNL analysis](#):

Would heighten **the penalties for protests near oil and gas pipelines** and other infrastructure. Under the bill, knowingly trespassing on property containing a critical infrastructure facility is punishable by a year in jail and a \$500 fine. Criminal trespass on critical infrastructure property with intent to “vandalize, deface, tamper with equipment, or impede or inhibit operations” of the facility is a felony punishable by up to three years in prison and a \$1,000 fine. Actually vandalizing, defacing, or tampering with the facility—regardless of actual damage—is a felony punishable by 5 years in prison and a \$2,000 fine. An individual convicted of any of the offenses, and any entity that “compensates, provides consideration to or remunerates” a person for committing the offenses, is also civilly liable for any damage sustained. An organization or person found to have “conspired” to commit any of the offenses—regardless of whether they were committed—is subject to a criminal fine. The bill newly defines “critical infrastructure facility” under West Virginia law to include a range of oil, gas, electric, water, telecommunications, and railroad facilities that are fenced off or posted with signs indicating that entry is prohibited.

Industry Lobbying
