

What America's Coup in Ukraine Did

On March 23rd, Gallup headlined ["South Sudan, Haiti and Ukraine Lead World in Suffering"](#), and the Ukrainian part of that can unquestionably be laid at the feet of U.S. President Barack Obama, who in February 2014 imposed upon Ukraine [a very bloody coup \(see it here\)](#), which he and his press misrepresented (and still misrepresent) as being (and still represent as having been) a 'democratic revolution', but was nothing of the sort, and actually was instead the start of the Ukrainian dictatorship and the hell that has since destroyed that country, and brought the people there into such misery, it's now by far the worst in Europe, and nearly tied with the worst in the entire world.

America's criminal 'news' media never even reported the coup, nor that [in 2011 the Obama regime began planning for a coup](#) in Ukraine, and that [by 1 March 2013 they started organizing it inside the U.S. Embassy there](#), and that they hired members of Ukraine's two racist-fascist, or nazi, political parties, Right Sector and Svoboda (which latter had been called the Social Nationalist Party of Ukraine until the CIA advised them to change it to Freedom Party, or "Svoboda" instead), and that in February 2014 they did it (and [here's the 4 February 2014 phone call instructing the U.S. Ambassador whom to place in charge of the new regime when the coup will be completed](#)), under the cover of authentic anti-corruption demonstrations that the Embassy organized on the Maidan Square in Kiev, demonstrations that the criminal U.S. 'news' media misrepresented as 'democracy demonstrations,' though Ukraine already had democracy (but still lots of corruption, even more than today's U.S. does, and the pontificating Obama said he was trying to end Ukraine's corruption — which instead actually soared after his coup there).

The head of the 'private CIA' firm Stratfor said it was ["the most blatant coup in history"](#) but he couldn't say that to Americans, because he knows that our press is just a mouthpiece for the regime ([just like it was during the lead-up to George W. Bush's equally unprovoked invasion of Iraq](#) — for which America's 'news' media suffered likewise no penalties).

When subsequently accused by neocons for his having said this, his response was "I told the business journal Kommersant that if the US were behind a coup in Kiev, it would have been the most blatant coup in history," [As I pointed out when writing about that rejoinder of his](#), he had, in fact, made quite clear in his Kommersant interview, that it was, in his view "the most blatant coup in history," no conditionals on that.

Everybody knows what Obama, and [Clinton](#), and Sarkozy, did to Libya — in their zeal to eliminate yet another nation's leader who was friendly toward Russia (Muammar Gaddafi), they turned one of the highest-living-standard nations in Africa into a failed state and huge source of refugees (as well as of [weapons that the Clinton State Department transferred to the jihadists in Syria to bring down Bashar al-Assad, another ally of Russia](#)) — but the 'news'

media have continued to hide what Obama (assisted by America's European allies, especially Poland and Netherlands, and also by America's apartheid Middle Eastern ally, Israel) did to Ukraine.

I voted for Obama, partly because the insane McCain ("bomb, bomb, bomb Iran") and the creepy Romney ("Russia, this is, without question, our number one geopolitical foe") were denounced by the (duplicitous) Obama for saying such evil things, their aggressive international positions, which continued old Cold-War-era hostilities into the present, even after the Cold War had ended long ago (in 1991) ([but only on the Russian side](#)). I since have learned that in today's American political system, the same aristocracy controls both of our rotten political Parties, and American democracy no longer exists. (And [the only scientific study of whether America between the years 1981 and 2002 was democratic found that it was not](#), and it already confirmed what Jimmy Carter later said on 28 July 2015: "[Now it's just an oligarchy with unlimited political bribery being the essence of getting the nominations for president or being elected president. And the same thing applies to governors, and U.S. Senators and congress members.](#)" But yet our Presidents continue the line, now demonstrably become a myth, of 'American democracy', and use it as a sledgehammer against other governments, to 'justify' invading (or, in Ukraine's case, overthrowing via a 'democratic revolution') their lands (allies of Russia) such as in Iraq, Libya, Syria, and maybe even soon, Iran.

Please send this article to every friend who is part of the majority that, as [a Quinnipiac University poll published on March 22nd](#) reported, "A total of 51 percent of voters say they can trust U.S. intelligence agencies to do what is right 'almost all of the time' or 'most of the time'" (and that level of trust was far higher than for the rotten press and for the rotten politicians), even after the CIA's rubber-stamping Bush's lies to invade Iraq, and after the FBI's shameless performance on Hillary Clinton's privatized State Department emails even after [her smashing their cell-phones with hammers](#), etc., and all the other official cover-ups, with no American officials even so much as being charged for their rampant crimes against the American public.

Besides: [ever since the CIA's founding, it has had an "Operation Gladio" that specializes in](#)

[organizing terrorist acts](#) so as for them to be blamed on, first, communist countries when they existed; and, then, after the end of communism, on allies of Russia. Did the American dictatorship begin right after FDR died in 1945? How much longer will these lies succeed?

For the people of [Iraq](#), and of [Syria](#), and of Ukraine, and many such countries, this dictatorship has destroyed their lives. Trusting the 'intelligence' services of a dictatorship doesn't make any sense at all. They're all working for the aristocracy, the billionaires — not for any public, anywhere; not here, not there, just nowhere. Should the cattle trust the feedlot-operator? Only ignorance can produce trust, under the conditions that *actually* exist.

So, unless the idea is that ignorance is bliss, pass along the truth, when you find it, because it is very rare — and the system operates *to keep it that way*.
