*A few days ago I was seriously asking myself whether **Donald Trump** was insane after he spent a weekend tweeting/lambasting a dead **John McCain**. Today I have confirmation that he is not the only insane one on the national security team... We are doomed!*

This [report from the BBC](#) regarding American **Secretary of State Mike Pompeo**'s view of the possible divine origin of the 2016 election result as a necessary intervention to "save the Jews" is possibly the most frightening bit of commentary to come out of the Trump national security team.

Pompeo says God may have sent Trump to save Israel from Iran

Mike Pompeo is among the administration's most religious members, even attending a bible study group with other Cabinet members

US Secretary of State Mike Pompeo has said it is "possible" that President Donald Trump was sent by God to save Israel from Iran.

What did Pompeo say?

He was asked if "President Trump right now has been sort of raised for such a time as this, just like Queen Esther, to help save the Jewish people from an Iranian menace".

"As a Christian, I certainly believe that's possible," said Mr Pompeo, a former Kansas senator and CIA director.

"I am confident that the Lord is at work here," he added.

Pompeo by virtue of his office has great power to do good or ill and he has clearly chosen to make decisions based not on American interests but rather on his own personal interpretation of a religious text. Further, he is promoting American interference in an election in Israel which might have led to a rejection of the extreme right wing philosophy that guides its current government.

The move yesterday to recognize Israeli sovereignty over the Golan Heights was part and parcel of a plan to promote **Prime Minister Benjamin Netanyahu** as the candidate who would be best able to secure unlimited support from Washington.

More might be coming in the form of some recognition of Israeli sovereignty over the Palestinian West Bank prior to the April 9th election or even some military action against Iran.

Pompeo clearly believes that this is all part of some divine plan. Anyone who persists in thinking that nations should pursue policies that are rational and based on genuine interests should be appalled by the Pompeo comments and fearful of what the consequences might be.
