Nov. 30, 2023 -Omaha, NE - 30 year old Michael Peterson died suddenly at his home on Nov. 30, 2023.

Michael Peterson

February 20, 1993 – November 30, 2023

Michael Douglas Peterson, age 30, a resident of Omaha, Nebraska, suddenly passed away in his home on November 30th, 2023.

Michael was born on February 20th, 1993, in St. Paul, Minnesota, to parents Douglas and Cheryl Peterson. From an early age, Michael displayed an outgoing and curious personality, cultivating a deep love for animals, a passion for exploring new places, and learning. His educational journey led him through Deerwood Elementary, Black Hawk Middle School, and culminated in his graduation from Eagan Senior High School in 2011.

During his high school years, Michael's vibrant spirit shone through as he played the trombone in the school band, contributed to the Eagan drumline, competed on the bowling team, and even experienced the excitement of being part of the homecoming court. His friendships, formed during this period, remained steadfast throughout his life.

AMSTERDAM - Following the death of Amsterdam High School teacher Liam Pickett, his life is being remembered by those he influenced.

A teacher and theater lover, Pickett touched the hearts of many within the Capital Region's education and performance circles. Most recently, the Niskayuna native taught chemistry at Amsterdam High School. He also spent six years teaching chemistry and environmental science at The Doane Stuart School, where he pioneered a theater camp that eventually grew into Footloose Theatre in Albany.

Pickett died suddenly of a burst aortic artery on Nov. 28, he was 31 years old. Pickett suffered a medical emergency after teaching his last period class last Tuesday. District staff and emergency medical crews rushed to help. He died at St. Mary's Healthcare.

According to his obituary, a memorial Mass will be celebrated at 11 a.m. on Wednesday at St. John the Evangelist Church at 806 Union St. in Schenectady. Relatives and friends are invited and may

KINNELON — Services and a "final call" will be held for beloved volunteer firefighter Lt. Justin Bower, 30, who died suddenly on Nov. 18.

The Fire Department announced Bower's death on Tuesday, but gave no specific details.

Bower was known to be a caring husband, son, brother and friend. He served the borough as a firefighter for about five years. His loved ones said Bower was passionate about his job and committed to helping his community.

Firefighter and department Vice President Alex Merlucci said Bower was "someone who was generous, dedicated, and very funny. You can depend on him if you needed anything." Merlucci added that Bower had a great personality as "he had a way of lighting the room with humor."

Merlucci said he does not know the cause of death, but said Bower died hours after he attended a fire call on Saturday night.

Died: Nov.9, 2023

Tributes have been paid by a distraught girlfriend to "the best man ever" after his sudden death. Joshua Annear, 30, died suddenly last week, with his partner Kyra Dunnett left broken by the loss.

The couple had only been together a short time. But Kyra said: "My whole world and heart has been shattered into billions of pieces and I'll never recover from this."

Josh, as he was known by family and friends, is remembered as "amazing, honest" and "the most handsome man". "I would have given anything for him to have stayed on this Earth," she said. "He truly wanted to live so badly," as [CornwallLive reports](#).

Josh was often outspoken about his efforts to get clean, even sharing milestones of how long he'd been sober from drinking. His last few posts spoke about getting clean and how life was "changing for the better".

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”

Reviews

This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon

In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky’s book is a rock upon which to sustain our fight. -Dr. Emanuel Garcia

In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test - which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists. —Peter Koenig

Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. -David Skripac

A reading of Chossudovsky's book provides a comprehensive lesson in how there is a global coup d'état under way called "The Great Reset" that if not resisted and defeated by freedom loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it's too late. You will not find so much valuable information and analysis in one place. -Edward Curtin
