Who are the White Helmets? This is a question that everyone should be asking themselves.

A hideous murder of a rising star in UK politics, [Jo Cox MP](#), has just sent shock waves across the world. Within hours of her untimely death, [a special fund](#) was established in her name to raise money for 3 causes. One of those causes is the Syrian White Helmets.

Are we seeing a cynical and obscene exploitation of Jo Cox's murder to revive the flagging credibility of a US State Department and UK Foreign Office asset on the ground in Syria, created and sustained as first responders for the US and NATO Al Nusra/Al Qaeda forces?

FOLLOW THE MONEY: The White Helmets are just one component of the new NGO Complex.

If this is the case, and I fear it is, the depravity of our government, the US government, the state led media and associated Syria Campaign support groups have reached a new level of perversion of Humanity. The White Helmets have been demonstrated to be a primarily US and NATO funded organisation embedded in Al Nusra and ISIS held areas exclusively.

This is an alleged "non-governmental" organisation, the definition of an NGO, that thus far has received funding from at least three major NATO governments, including \$23 million

from the [US Government](#) and \$29 million (£19.7 million) from the [UK Government](#), \$4.5 million (€4 million) from the [Dutch Government](#). In addition, it receives material assistance and training funded and run by a variety of other EU Nations.

A request has been put into the EU Secretary General to provide all correspondence relating to the funding and training of the White Helmets. By law this information must be made transparent and available to the public.

There has been a concerted campaign by a range of investigative journalists to expose the true roots of these Syria Civil Defence operatives, known as the White Helmets. The most damning statement, however, did not come from us, but from their funders and backers in the US State Department who attempted to explain the US deportation of the prominent White Helmet leader, Raed Saleh, from Dulles airport on the 18th April 2016.

“It was unclear whether Mr. Saleh’s name might have shown up on a database, fed by a variety of intelligence and security agencies and intended to guard against the prospect of terrorism suspects slipping into the country.” ~ [New York Times](#)

Mark Toner, State Department spokesperson:

“And any individual – again, I’m broadening my language here for specific reasons, but any individual in any group suspected of ties or relations with extremist groups or that we had believed to be a security threat to the United States, we would act accordingly. But that does not, by extension, mean we condemn or would cut off ties to the group for which that individual works for.”

So we come back to the initial question. Why is the tragic death of a passionate and ambitious politician being exploited? Why are all political parties in the UK endorsing the Jo Cox fund to provide financial assistance for an organisation the UK Government is already funding and training?

Why are the public once more being used as political pawns to further our government’s imperialist objectives inside Syria and their covert, illegal, proxy intervention of a sovereign nation via both terrorist forces and phony humanitarian first responders?

[Phillip Hammond, UK Foreign Secretary meeting White Helmets in southern Turkey](#)

The White Helmets are perhaps being demonstrated to be the most crucial component of the US and NATO shadow state building inside Syria. Led by the US and UK this group is essential to the propaganda stream that facilitates the continued media and political campaign against the elected Syrian government and permits the US and NATO to justify their regime of crippling economic and humanitarian sanctions against the Syrian people.

If this latest mechanised 'NGO' blueprint is successful then we could see it being re-deployed as key to future neo-colonialist projects. The White Helmets are a direct *intra-venus* line into the terrorist enclaves within Syria, acting as a conduit for information, equipment and medical support to maintain the US NATO forces.

Is this the future of warfare, is this the "swarming" outlined in a 2000 report produced by the RAND Corporation and entitled: [Swarming and the Future of Conflict](#).

"The emergence of a military doctrine based on swarming pods and clusters requires that defense policymakers develop new approaches to connectivity and control and achieve a new balance between the two. Far more than traditional approaches to battle, swarming clearly depends upon robust information flows. Securing these flows, therefore, can be seen as a necessary condition for successful swarming."

Is this why we are seeing what is, in effect, crowd funding for proxy war? Do we really want to look back and be "judged by history" for enabling conflict and state terrorism, violating international law and invading sovereign nations. Are we prepared to accept the consequences of such actions, consequences that should be taken by our governments alone but are now being diffused outwards to the general public. Is this an attempt by our government to disassociate themselves from their criminal actions?

To condense our research on the Syria White Helmets, we have collated all relevant articles and interviews below. We condemn wholeheartedly any senseless murder but we

recommend that there is serious public and political re-evaluation of the morality of funding a US NATO organisation established to further “regime change” objectives in Syria.

Mass murder is being committed across Syria and the region by US and NATO proxy terrorist militants. Funding the White Helmets will serve to prolong the suffering and bloodshed of the Syrian people.

We have demonstrated that the White Helmets are an integral part of the propaganda vanguard that ensures obscurantism of fact and propagation of Human Rights fiction that elicits the well-intentioned and self righteous response from a very cleverly duped public. A priority for these NGOs is to keep pushing the No Fly Zone scenario which has already been seen to have disastrous implications for innocent civilians in Libya, for example.

White Helmets: One of the many suspect Hollywood style promo rescue videos

Please note that the child that is rescued is very clean considering she has allegedly been buried under the rubble of "regime" bombing raids..we do not in any way wish to detract from the heroic work of the true first responders on the ground in Syria, the real *Syria* Civil Defence and the Red Crescent who are never mentioned in the western media but we do wish to draw your attention to the propaganda methods being employed to amplify US and

NATO narratives that are insisting upon “regime change.”

We will add to the above articles and interviews as they become available. Vanessa Beeley has just completed a speaking tour of the UK and Iran during which she highlighted the role of the NGO complex in general and the White Helmets in particular as a new breed of predatory humanitarianism being unleashed against target nations. Videos of her talks will be published as soon as they become available from the [AV7 conference](#) and [Frome Stop War](#).
