This was one of the first reports revealing machine gun like holes in the fuselage

*OSCE monitor Michael Bociurkiw mentions bullet holes in #MH17, not able to find any missile so far. According to the WSJ:*

Monitors from the Organization for Security and Cooperation in Europe reported that shrapnel-like holes were found in two separate pieces of the fuselage of the ill-fated [Malaysia Airlines](#) aircraft that was believed to have been downed by a missile in eastern Ukraine.

Michael Bociurkiw of the OSCE group of monitors at his daily briefing described part of the plane’s fuselage dotted with “shrapnel-like, almost machine gun-like holes.” He said the damage was inspected by Malaysian aviation-security officials .([Wall Street Journal](#), July 31, 2014)
