Theme: [Terrorism](#), [US NATO War Agenda](#)

To understand the complex web of deceit aimed at luring the American people and the rest of the world into accepting a military solution which threatens the future of humanity, get your copy of Michel Chossudovsky's international bestseller, America's "War on Terrorism"

 In this expanded edition of Michel Chossudovsky's 2002 best seller, the author blows away the smokescreen put up by the mainstream media, that 9/11 was an attack on America by "Islamic terrorists". Through meticulous research, the author uncovers a military-intelligence ploy behind the September 11 attacks, and the cover-up and complicity of key members of the Bush Administration.

The expanded edition, which includes twelve new chapters focuses on the use of 9/11 as a pretext for the invasion and illegal occupation of Iraq, the militarisation of justice and law enforcement and the repeal of democracy.

According to Chossudovsky, the "war on terrorism" is a complete fabrication based on the illusion that one man, Osama bin Laden, outwitted the \$40 billion-a-year American intelligence apparatus. The "war on terrorism" is a war of conquest. Globalisation is the final march to the "New World Order", dominated by Wall Street and the U.S. military-industrial complex.

September 11, 2001 provides a justification for waging a war without borders. Washington's agenda consists in extending the frontiers of the American Empire to facilitate complete U.S. corporate control, while installing within America the institutions of the Homeland Security State.

Chossudovsky peels back layers of rhetoric to reveal a complex web of deceit aimed at luring the American people and the rest of the world into accepting a military solution which threatens the future of humanity.

“Millions of people have been misled regarding the causes and consequences of September 11.

When people across the US and around the World find out that Al Qaeda is not an outside enemy but a creation of US foreign policy and the CIA, the legitimacy of the bipartisan war agenda will tumble like a deck of cards.

Across the land, the image of an “outside enemy” is instilled in the consciousness of Americans. Al Qaeda is threatening America and the world. The repeal of democracy under the Patriot legislation is portrayed as a means to providing “domestic security” and upholding civil liberties.

The 9/11 Commission Report destroys the historical record of US covert support to international terrorism, while creating the illusion that America and “Western Civilization” are threatened. In turn, the various terrorist warnings and code orange alerts have created, across America, an atmosphere of fear and intimidation.”

-Michel Chossudovsky, America’s “War on Terrorism”, Global Research
